Product Engineering

McGRAW-HILL MAGAZINE OF DESIGN
RESEARCH AND DEVELOPMENT

1958 INDEX

VOLUME 29

WEEKLY EDITIONS • JANUARY 6 to JUNE 30

Subject index • page 2
Author index • page 10
Company names and organizations • page 12

Index includes editorial content of each weekly issue:
Feature articles and special reports, staff and contributed,
Developments to Watch, Perspectives, Editorials, Product Designs,
Design Roundups, Reference Book Sheets, Tangents, and featured items in
Engineering Week, New Components and Materials, and Abstracts.

Copyright 1958 by McGraw-Hill Publishing Co., Inc., 330 West 42nd Street, New York 36, N.Y.

—A—

Actuators

Actuator adjusts cooling system (PD) Mar. 31 112

Adhesives

Ceramic adhesives gain strength (N) Jan. 27 17
Composite film adhesives (SP) Jan. 27 45
Electrical conductivity of epoxy adhesives (SP) ....Mar. 10 49
Foamed adhesives that can cut costs (D) ....Mar. 10 7
New adhesive, Polybond (D)...Mar. 31 36
Which adhesive for what. James & Gormly ....Mar. 17 79

Aeronautics

A-powered airliners years away (N) Feb. 3 20
Aircraft firms try new design teams (N) ....May 26 21
Airmen want better instruments (N) Feb. 17 22
ASME, ARS tussle with problems of flight design (N)....Apr. 14 22
BOAC thrust platforms measure up (N) Jan. 6 37
British claim flight without flying (N) June 16 20
Changeable jet unique flight-testing tool (N) ....Feb. 24 26
Crash-locator beacon to reduce lost plane search time (N) ....Apr. 21 26
Emergency gear floats Whirlybird (N) Mar. 17 22
Evolution follows design of jet trainer (PD) ....Jan. 6 75
Executive aircraft design (N)..Feb. 10 21
Fairey claims lead in VTO aircraft (N) May 5 30
Fence deflects jet blasts (N)....Jan. 6 38
French testing mobile silencer for jet engine run-ups (N)....Feb. 3 23
German display jet engine and model of passenger airline at Leipzig Fair (N) ....Apr. 7 22
Germans shun UK plane, Saunders Roe SR 177 (N) ....Jan. 20 23
Helicop-Huts of urethane foam (N) Feb. 3 22
Japan may revive wartime Aircraft Research Institute (N)....Jan. 27 30
Launcher trims bomber runway size (N) ....Feb. 17 21
Materials requirements for the next five years (D) ....Apr. 21 7
Mechanical design in aircraft (A) Apr. 14 138
Microwave command guidance system tests U. S. air defenses (N)..Apr. 28 39
Operational integrity in aircraft systems (A) ....Apr. 28 147
Plastic laminates in Ordnance drone (N) ....Feb. 24 25
Polarizing technique improves visibility in fog, haze and smoke (N)..Apr. 28 38
Russia spurs US air power to try A-power (N) ....June 9 23
Seek hi-temperature aircraft windshields (N) ....June 16 24
Shriek-proof design (D)....Jan. 27 7
Styrofoam astrodomes (N)....June 23 21
Testing designs for space (N)...Feb. 3 21
United Kingdom leads and lags US in plane-making techniques (N)..Feb. 3 22
US Air Force all-weather reconnaissance system—companies group for big job (N)....June 30 18
USAF developments (N)....Mar. 17 23
USAF repair bill cut by new concept (N) ....Mar. 17 22
WS-110-A chemical bomber will use stainless steel (D)....Jan. 27 11

Aluminum

Aluminum sand-casting alloy (SP) June 2 33
Anodized aluminum magnet wire (D) Mar. 17 17
(N) ....May 19 12
High-integrity aluminum castings. A. R. Mead....Feb. 17 69
High-luster aluminum sheet alloy (N) Mar. 24 26
New jobs: German road light, Norwegian heat-exchange tubing (D) Mar. 24 12
Sintered aluminum bearings (D) Feb. 24 12

Appliances

Automatic dryers—unforeseen fire hazards (D) ....Mar. 17 17
Built-ins for homes (D)....June 16 5
Drink mixer (T)....Feb. 10 39
Food mill and mixer (T)....May 5 39
Frost-free refrigerator (D)....June 2 5
Gas engine refrigerator (D)....Apr. 7 10
Kitchen range (T)....June 30 22
Kitchen range control knobs set on inclined-recessed panel (T)....May 5 39
Radio-controlled ranges in 1959 (D) Feb. 10 7
Replacement times for major appliances (D) ....June 23 20
Tub-less washer — immersed motor stays dry (PD)....Apr. 14 66
Vacuum cleaner (T)....Apr. 7 36

Applied Mechanics

Angular accuracy in precision gear trains. Ferdinand Freudenstein June 9 70
Chart eases moment-of-inertia calculations. W. G. Flannelly (RS) Feb. 17 95
Contact ratio for involute gears. E. A. Niemann (RS) ....June 9 81
Controlled acceleration devices—report. J. R. Eastman....Mar. 3 75
Coriolis acceleration—a force to be reckoned with. Nicholas Chironis May 26 72
Equations predict chance of misfit in assembly. W. Hanka....May 26 61
Fan selection guide....Apr. 28 92
How much horsepower to pipe liquids? (RS) ....Jan. 6 89
How to calculate stress in short cylindrical shells. Lawrence Berko (RS) Feb. 3 81
Input-output analysis of mechanisms. J. O. Predale....Mar. 17 90
Multi-rate helical springs. K. A. Flesher ....Jan. 20 76
New coefficients predict wear of metal parts. Ernest Rabinowicz....June 23 71
New shock absorber. Sando & England May 12 86
Nomograph gives torque. S. Warren Kaye (RS) ....June 9 83
Nylon-clad sleeve bearings. Penney & Bockhoff ....Mar. 3 52
Ratchet layout analyzed. E. E. Rossner (RS) ....Jan. 20 89
Rubber cushions when bearings must be quiet. R. E. Downes....Apr. 28 96
Shrink fit nomograph. Sigmund Rappaport (RS) ....Apr. 14 85
Thermal radiation from hot surfaces. G. V. Thompson....Mar. 31 116
Variable-section cantilever beams. Dr. K. Maier ....Feb. 17 85

Assembly

Armatures—automatic assembly (PD) Apr. 28 90
Check-chart for single-part complexity. P. C. Noy (DR)....Mar. 31 124
Equations predict chance of misfit in assembly. W. Hanka....May 26 61
Programming circuits (SP)....Mar. 24 39
7 basic selectors for parts. P. C. Noy (DR) ....May 12 96
17 wedge-action assemblies. Federico Strasser (DR) ....Mar. 17 96
Tape programs assembly (PD)..Apr. 3 66
10 ways to mount servo components. F. W. Wood Jr. (DR)....Jan. 6 86

Automotive

Automatic locking device for auto accelerator (D) ....May 19 8
Battery charger (D)....May 5 10
Bottom-loading system for gasoline trucks (D) ....Mar. 3 18
Brake tester (D)....May 5 10
Car door slides back (PD)....Feb. 17 81
Car drivers groan—figures tell why (N) ....June 23 24
Chrysler foresees small economy car when time is ripe (N)....June 9 25
Consumers' spokesman blasts cars from stem to stern and tailfin (N) May 26 33
Detroit parking official retorts to N. Y. Mayor's small-car plea (N)..Feb. 17 20
Driverless trips by automobile (D) Jan. 27 11
Dumper from Britain (D)....Mar. 10 12
Dumptruck with welded aluminum body (T) ....Apr. 7 37
Experimental tractor (N)....Jan. 20 23
Flywheels, spark plugs make British headlines (N) ....Apr. 7 27
Folding jeep carries four (PD)..Apr. 14 64
Ford describes flying car (N)...Apr. 21 23
Fork-lift for handling redwood logs (PD) ....Mar. 3 65
Gasoline is coolant in auto refrigerator (D) ....Apr. 21 7
GM setting up test equipment to compare auto stability (N)....Feb. 17 23
German Ford goes into 4-wheel drive automatically (PD) ....Mar. 17 84
Hydraulic, pneumatic—two many systems in one car (N)....Mar. 10 25
"Jolly" (T) ....Apr. 7 37
Lift truck needs no mast (PD)..May 26 67
Lotus sports and competition cars (T) Jan. 27 43
Lower cars—but where to put passengers? (N) ....June 30 17
Monorail: safety, speed and silence Apr. 7 19
New tire types (D)....Jan. 27 8
Opel Caravan price list announced (N) Jan. 6 38
Plastic applications for the automotive industry (N) ....Mar. 3 21
Plastics in cars on the upswing (N) Mar. 24 27
Rheostats regulate shock absorbers (PD) ....Mar. 31 114
Saab motor car—Swedish design (T) Feb. 24 37
SAE meeting report: cars better than ever (N) ....Feb. 10 30
Soviet forward look (N)....May 12 24
Steering wheels made safer (N)..Apr. 7 21
Styling will affect engineering redesign (N) ....Jan. 6 37
3 looks at air springs (PD)....Apr. 28 86
Tire-changing device (D)....Apr. 21 14
Today's car: the large and small of it (N) ....Mar. 31 37
Toothed tires for snow and soft ground (D) ....Jan. 13 8
Torque converter gives tractor two drives in one (PD)....Jan. 20 65
Truck goes in any direction (PD) Jan. 6 72
Tubeless aircraft tire being eyed by automakers (N) ....Jan. 27 30
Turbine wheel cost cut from $4000 to $100 ....May 5 29
US cars losing favor in Europe (N) Mar. 17 22
Urethane foams expand into autos (N) June 2 11
Wind-tunnel gage helps French auto designers (N) ....Feb. 3 23

—B—

Batteries

Another miniature battery (D)..Apr. 21 8
Dry cells for quiet, dependable, packaged power. J. J. Coleman...Feb. 17 72
Midget batteries—power paths to new design. A. R. Gardner....May 12 72
Miniature rechargeable batteries (D) Mar. 31 36
Nuclear batteries at ⅓ the cost (D) Feb. 10 7
Self-powered flashbulbs (D)....May 19 5
Solar batteries power eyeglass hearing aids (D) ....June 2 5
300 watts of portable power with new ac battery (D)....Feb. 17 18

Bearings

At 500 to 1000F, oil is not needed on metal bearings (D)....Feb. 17 18
Ball-bearing way cartridges ease traversing (SP) ....Mar. 24 38
Evaluating bearing misalignment (A) Mar. 3 120
High-capacity, low-cost bearing (C) Mar. 17 103
High-temperature bearing materials (A) ....Mar. 3 120
High-temperature bearing operations (A) ....Mar. 3 120
How to lubricate instrument ball bearings. R. F. Irwin....June 9 66
Instrument bearings for 300F and up. N. A. Sinclair....Feb. 3 72
Motion and friction in ball bearings (A) ....Apr. 14 138
New gothic-arch uses (N)....Apr. 7 30
Nylon-clad sleeve bearings. Penney & Bockhoff ....Mar. 3 52
Plastic-metal bearing (SP)....May 5 43
Roller-way bearing cuts stick, slip (SP) ....Mar. 24 38
Rubber cushions when bearings must be quiet. R. E. Downes....Apr. 28 96
Sintered aluminum bearings (D)Feb. 24 12
Thin-section bearings (SP)....Apr. 7 41
Torque-free bearing assembly (SP) June 30 26
We threw out press fits for bearings. E. F. Oblinger....Jan. 6 67

Belt Drives

Belt and rope drives (A)....May 26 123
Link design cuts belt down time (N) Apr. 21 23
Pointers for belt design (D)....Apr. 7 10

Brakes Electrical

Miniature brakes have no brushes (C) Feb. 17 99

Brakes, Mechanical

Liquid-cooled braking system (D) Mar. 10—8, Mar. 24 8
Surge mechanism stops towed vehicles (SP) ....Mar. 10 48
"Voice" coil actuates clutch-brake (C) May 12 103

Brazing

Brazing flux paste (SP)....Apr. 7 41

(A) Abstract. (C) New Components. (D) Developments. (DS) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (RS) Reference Book Sheets.
(SP) Significant Parts. (T) Trends in Appearance Design.

—C—

Cams

Cam varies spindle speed (PD).Jan. 20 66
Which way to make a cam? H. A. Rothbart .....Mar. 3 67

Capacitors

Solid electrolyte capacitors (D).Mar. 17 18

Casting

Cast-in tubing. H. L. Kee....May 12 76
Casting alloy enters high-strength field Opsahl & Sparing.....Apr. 28 84
Germans develop fast-cast steel plant (N) .....Apr. 7 21
Gray iron castings—report. C. F. Walton & others.....Jan. 20 52
High-integrity aluminum castings. A. R. Mead.....Feb. 17 69
High-strength castings (D).....Jan. 20 17
Mower costs cut with castings (PD) Apr. 28 89
Vacuum steel grows up. J. H. Stoll. May 26 70
Which finish for zinc die castings. Ray Stricklen. .....Mar. 3 59

Ceramics

Cemented oxide points to revolution in machine tool design (N) Apr. 28 36
Ceramic adhesives gain strength (N) Jan. 27 17
Ceramic and powder-metallurgy techniques to provide fuel elements for new-type nuclear reactors (D) Apr. 7 6
Ceramics from glass go commercial Mar. 17 87
Ceramics that bounce. R. H. Rudolph. Feb. 3 76
Ceramic withstands heat shock (SP) June 30 27
Cold-cured ceramics (N).....June 30 11
Ductile ceramics (N).....Jan. 27 14
Foamed ceramics (D).....Apr. 28 33
Improved ceramic electron tubes (D) Apr. 7 6
Metal-bonded ceramics (N)....Mar. 17 23
Miniature ceramic parts (SP)..Apr. 7 41

Cladding

Nylon-clad sleeve bearings. Penney & Bockoff .....Mar. 3 52

Clutches, Electrical

Controlled acceleration devices—report. J. R. Eastman .....Mar. 3 75
Miniature clutches have no brushes (C) Feb. 17 99
Timing clutch (SP).....Apr. 7 40

Clutches, Mechanical

Clutch disengages at predetermined position (C) .....May 26 87
Controlled acceleration devices—report. J. R. Eastman.....Mar. 3 75
Multi-function overrunning clutches. Mulholland & King Jr. (DR).Feb. 3 78
Precision spring clutch (A)....Jan. 6 130
Spring clutches for faster response. E. V. Leonard .....Apr. 14 57
V-belt pulley with automatic torque conversion (SP) .....Apr. 21 40
"Voice" coil actuates clutch (C).May 12 103

Color

Color specification devices (D).Feb. 17 17
Mixtures of red and white light can simulate the sensation of a range of colors (D) .....Feb. 24 8

Compressors

Compressed air turns copter rotor (N) Jan. 6 38
Compressor, electrically powered (T) Feb. 24 35

Computers

Air Force logistics handled by computer (N) .....May 5 21
Big computers solve packaged problems economically. C. J. Lynch..June 2 28
Building-block technique points to small-computer design (N)..Feb. 10 24
Compact computing in standard desk (N) .....Jan. 27 24
Computer market aims at engineers (N) .....May 19 26
Data processing system, completely transistorized (N).....Apr. 21 23
Digital counter (C).....Feb. 3 85
Punched cards—answer to wiring woe. D. W. Melville.....Jan. 20 58
Transistors give desk-size computer (PD) .....June 23 75
Translating machine: an ABC for you. D. C. Greenwood.....Mar. 24 30
User-computer communications (A) May 26 123

Control Systems

Automatic tool-breakage dector (D) Apr. 21 14
Automatic traffic control a step closer (N) .....Mar. 10 28
Control equipment demand is world wide (D) .....May 19 8
Controlled acceleration devices—report. J. R. Eastman.....Mar. 3 75
Controlled deceleration for trains (PD) Jan. 6 74
Electrical control enclosures. F. L. Teuscher.....June 23 78
Improved thermal controls sought (D) May 26 19
Interlock monitors paper register (PD) Feb. 17 80
Linkage measures bending stress (PD) June 9 65
Pneumatically operated web control (C) .....Apr. 14 89
Programming circuits (SP) ...Mar. 24 39
Proportioning heat control (SP).May 19 39
Punched tape or card reader (SP) June 2 32
Remotely adjustable motor base controls speed (C).....Jan. 6 93
Safety when a turbine fails (PD) Mar. 31 111
Tape controlled multifunction drill (PD) .....Mar. 17 86
Tape-controlled production line (N) Mar. 24 28
Unit detects minute changes (C).Apr. 28 111
Westinghouse Machine-tool Forum highlights static controls (N).May 12 25
Why quickening works (A)....Apr. 14 138

Control Systems, Hydraulic

Electro-hydraulic control systems (A) May 12 149

Corrosion

Corrosion control-new ideas from AEC research (D) .....May 19 5
Faster corrosion test cuts designing cost time of heat exchangers (N) June 16 26
Great Britain's Uskmouth power station 60 MW turbo alternator wrecked by corrosion (N) .....Apr. 14 21
How heat treatment affects corrosion resistance of stainless (A)..Apr. 28 147
Materials that can help reduce corrosion in gas-turbine engines (D) Mar. 24 7
Titanium stress-corrosion cracking at high temperatures (N).....Jan. 27 17
White oil byproducts are highly effective rust inhibitors (D).....May 12 19

Couplings

Controlled acceleration devices—report. J. R. Eastman.....Mar. 3 75
Couplings links shafts, motors (SP) Jan. 13 40
Hermetic Magnetic couplings. D. A. Guerdan. .....Apr. 28 98
Miniature power couplings (SP).Jan. 27 45
Universal coupling (SP).....Jan. 27 45

Cylinders

Linear is converted to rotary in cylinder (C).....June 23 101
When pistons need brakes. Louis Dodge Feb. 3 56

—D—

Design

ASME annual meeting, N. Y. Dec. 2-6 selected papers (A).....Jan. 6 130
Aircraft firms try new design teams (N) May 26 21
Ball screw speeds cycling (PD).Feb. 3 67
Building-block technique points to small-computer design (N)..Feb. 10 24
Cams—31 ways to make a cam. H. A. Rothbart. .....Mar. 3 67
The case-study fallacy (Ed)...June 23 67
Check-chart for single-part complexity. P. C. Noy (DR).....Mar. 31 124
Chemical milling. C. H. Lundquist Feb. 3 50
Covering the Fairs—German Industrial Fair, Hannover; Second International World Trade Fair, N. Y. (N).June 2 16
Crutches won't help cross a design roadblock (Ed) .....May 19 17
Design engineers lend an ear to biophysicists (N) .....Apr. 14 24
Design for automatic production—report .....June 28 81-92
Automatic manufacture for high production. C. L. Johnson....June 23 82
Automation conquers an arduous task. R. O. Vuilleumier..June 23 85
Automating a large, low-volume product. Fred Baumann.....June 23 88
Design for automation is product engineer's job (N).....June 2 18
Design is more than nuts and bolts. M. P. Taylor.....Mar. 10 33
The designing peddler (Ed)...Apr. 21 19
Don't let salesmen plan your products. I. P. Sharpe.....Apr. 21 35
Economics of component selection (A) Jan. 20 131
The elusive idea (Ed).....May 5 19
Fan selection guide.....Apr. 28 92
Fastener checklist (DR).....Mar. 3 82
For want of a nail (Ed).....Mar. 17 65
Gas turbines—their design future May 5 22
Geneva wheel design. D. C. Greenwood (RS) .....May 26 83
Hot solenoid. O. K. Smith.....Jan. 6 61
Leaded steel. W. Simon.....Apr. 14 72
Leipzig Fair spotlights Soviet lag in product design .....Apr. 7 22
Link design cuts belt down time (N) Apr. 21 23
Lost in a maze of materials?—materials department will tell you which metal or plastic to use. N. J. Petrella June 30 20
Metal inserts for plastic molding. Federico Strasser (DR).....Apr. 28 104
Midget batteries—power paths to new design. A. R. Gardner.....May 12 72
Missile materials raise wider application (N) .....June 16 11
Monorail: safety, speed and silence Apr. 7 19
Multi-rate helical springs. K. A. Flesher .....Jan. 20 76
Must the consumer have a new model every year?—Points of View June 2 30
New shock absorber. Sando & England May 12 86
9 ways to make instruments readable. R. M. Rowell.....Feb. 3 61
Panel design by pin-up (A)....Mar. 31 135
Pellet extrusions beef up magnesium structures. Foerster & Johnson May 12 80
Post-formed phenolic laminates. Harry Storch .....Feb. 17 66
Pressing can make complex shapes. C. C. Higgins.....Jan. 6 62
Product planning with Polaris.Mar. 10 44
Sandwich manifolding. A. A. Dicke Feb. 17 88
Shipyards trim for new-design building spurt (N) .....Apr. 14 25
10 ways to employ screw mechanisms. Federico Strasser (DR).....May 26 80
Ugly little fact (Ed).....Jan. 20 51
War games point to future equipment design .....June 30 14
Weather—can we design world weather? .....Mar. 24 23
What better mousetrap (Ed).....Apr. 7 17

Design see also **Industrial Design**

Design Engineering Show

Design Show Issue Parts One and Two Mar. 31
Part Two Mar. 31
Design Conference Program..Mar. 31 2
Who's Who and What's What.Mar. 31 4
Exhibitors alphabetically ....Mar. 31 8
Design Show...who's showing what Mar. 31 10
Where to eat in Chicago.....Mar. 31 13
How to get around in Chicago.Mar. 31 16
Third Design Conference and Show Apr. 28 41

Drafting

Armed Forces to mechanize storage of drawings (N) .....Mar. 17 19
Simplified-drafting controversy (N) Feb. 3 20
3-D drawing board (D).....Apr. 21 14

—E—

Economics

After 20 years what then? (P).Feb. 3 45
AMA Economic Mobilization Conference to weigh R&D as recession cure (N) .....May 12 25
Buyers are counting their pennies (D) Mar. 10 8
Economics...and the engineer. Russ Eggers .....Mar. 31 100
Foreign licensing agreements (P) May 26 53
Leasing of capital equipment (N) June 23 25
Plant and equipment additions hit by recession signs (N).....Mar. 24 26
R&D spending soars despite recession Apr. 21 21
The watch industry (P).....Apr. 14 47

(A) Abstract. (C) New Components. (D) Developments. (DS) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (RS) Reference Book Sheets.
(SP) Significant Parts. (T) Trends in Appearance Design.

Editorials

The case-study fallacy.....June 23 67
Crutches won't help cross a design roadblock .....May 19 17
The designing peddler.....Apr. 21 19
The eagle, the lion and the bear.Mar. 24 21
The elusive idea.....May 5 19
Face saved, shirt lost.....Feb. 17 65
For want of a nail.....Mar. 17 65
The Great God New.....May 12 71
The "have-nots" begin to "have" .....Mar. 3 51
High school IRBM.....June 2 15
Learning is Power.....June 30 13
Lost: Enthusiasm.....June 9 55
Man in space.....Feb. 10 19
Man is a product too.....Mar. 10 21
Man of Distinction.....June 16 15
The pace of change.....Feb. 24 21
The parable of the ants.....Feb. 3 49
The red rockets' glare.....Apr. 28 79
The return of derring-do.....May 26 55
The second step.....Jan. 13 15
Ugly little fact.....Jan. 20 51
What better mousetrap?.....Apr. 7 17
What will they dream about **now**? .....Jan. 27 21
When the minority rules well..Apr. 14 51
WHICH: how or why?.....Jan. 6 55

Education

Educators ask industry for manpower (N) .....Mar. 31 39
The engineer comes into his own—report .....Mar. 31 77-104
What about education? P. N. Anderson .....Mar. 31 82
The government steps in. Seth Payne .....Mar. 31 82
How the engineer can go back to school. D. K. Merris.....Mar. 31 88
Europeans say US education superior (N) .....May 19 28
Federal subsidies for aid to education (D) .....Mar. 24 11
Four-year "emergency" aid-to-education program (D).....Jan. 27 11
French speed engineer study (N) .....Mar. 24 26
How valuable are training programs? (N) .....Mar. 17 21
The humanities bounce back (P)Mar. 31 73
Humanities in engineering curricula (A) .....May 12 149
Learning is Power (Ed).....June 30 13
Michigan educator blasts 'false' figures (N) .....June 9 22
Michigan State Univ. reports grades down (N) .....Feb. 17 23
Must we compete with Moscow in the education race?—Points of View .....June 30 24
NSF plans modernized math for young students (N) .....June 2 17
Only 1 of 8 university candidates has 4 years of math (N).....Apr. 28 39
Oregon college heads asked for prep advice (N) .....Feb. 3 21
Plan modernized math for young students (N) .....June 2 17
Requests for NSF aid up since Sputnik (N) .....Feb. 17 22
Science conference calls for quality education (N) .....Feb. 17 19
Science main topic at Institute of World Affairs (N).....Jan. 13 21
Science struggles with wine merchants in Paris (N)..Feb. 24 23, Apr. 21 27
Stanford Univ. will offer design course (N) .....Apr. 21 38
Undergrad engineers need broader base (N) .....June 30 19
UN finds Europe short on science teachers (N) .....Jan. 20 22

Electrical

Anodized aluminum magnet wire (D) Mar. 17 17, (N).....May 19 12
Balancing shafts and rotors (A)June 9 105
Control enclosures. F. L. Teuscher .....June 23 78
Dataphone transmits business data over phone lines (N).....Feb. 24 26
Dielectric gas that can take 30% to 50% higher voltages (D)....May 12 20
"Electronic heat engine to convert heat into electricity (D).....Apr. 28 33
Fuel cells with an efficiency of 70 to 80% convert the chemical energy of hydrogen directly into electricity (D) .....Feb. 17 18
Ground failure detected and signaled .....Apr. 21 14
Heating element efficiency increased (N) .....Jan. 6 37
High-strength paper that conducts electricity (D) .....Feb. 17 17
High-temp dielectric material (SP) .....May 5 43
Individual voltage regulators (SP) .....Apr. 21 40
Infrared pinpoints pinhole leaks (N) .....Feb. 24 23
Magnet wire for 1000 F and above (D) .....Mar. 31 35
Masers to work in new signal-generator (D) .....Mar. 24 7
Midget batteries—Power paths to new design. A. R. Gardner.....May 12 72
Navy will pump more money into conversion of heat to electricity through thermocouples (D) .....May 5 9
New case for electric plotting board (T) .....Mar. 10 39
New semiconductor device (D)Apr. 28 34
Pilot lights with built-in resistors (SP) .....May 19 39
Pinhead-sized semiconductor diodes (D) .....Apr. 28 33
Punched cards—answer to wiring woe. D. W. Melville.....Jan. 20 58
Reliable electrical connections (A) .....June 9 105
Rotors without fishpaper slot insulation (D) .....May 5 6
Self-powered flashbulbs (D)...May 19 5
Semiconductors for infrared detectors (N) .....Feb. 24 14
Silver migration in printed circuits under study (N).....June 16 11
Stretch cables (SP).....Mar. 24 39
Subminiature neon lamp with current control (SP) .....June 2 33
Thermoelectric device converts nuclear energy into electricity (N)...Apr. 21 16
Thermoelectric power from intermetallics (N) .....June 30 10
Thermostat material with built-in contact stripe (D).....May 5 5
Trend to 400-cycle equipment (D) .....Feb. 3 18
Two GE systems provide unique power system for Convair's F-106 (N) .....Mar. 24 25
Whistlers for better radio transmission (D) .....Apr. 21 16
Wind energy stored by electrolysis of water (N) .....June 16 24
Wire-temperature indicator powered by battery (D) .....June 2 7
Wool wax cuts dielectric losses.Mar. 24 12

Electronics

Africans offer electronic yardstick for mileage (N) .....May 19 24
Better grounding for tubes (D).Feb. 10 8
Code checking system reduces teleprinter errors (N).....May 19 26
Control unit detects minute changes (C) .....Apr. 28 111
Converter-detector tube (D)...May 26 19
Electronic control system for buses (D) .....Jan. 27 12
"Electronic heat engine" to convert heat into electricity (D).....Apr. 28 33
Electronic larynx (N).....Mar. 3 21
Improved ceramic electron tubes (D) .....Apr. 7 6
Klystron oscillator retrieved following mid-air explosion in long-range missile (N) .....Jan. 20 20
Machines do speedy abstracts (N) .....Apr. 7 28
Maintenance plans for war hardware urged (N) .....Jan. 20 20
Monorail: safety, speed and silence .....Apr. 7 19
Preset batch counting (C).....Apr. 28 111
Semiconductors—revolution at your elbow .....Apr. 14 60
Surveillance drone (N) .....Feb. 17 22
Tape-controlled production line (N) .....Mar. 24 28
12 ways to retain electron tubes. F. W. Wood Jr. (DR).....Apr. 14 82
Unreliability of electronic equipment (A) .....May 26 123

Electroplating

For better electroplating. P. C. Noy (DR) .....June 23 94

Engineering Administration

Boston Univ. professor suggests "farming out" of engineers to minor league firms (N) .....Apr. 28 38
Brainstorming or logic to solve problems? (N) .....Mar. 3 23
Can you spot a creative engineer? Fred Lichtgarn .....June 16 30
Canada ponders "Yankee engineer—go home" order (N) .....May 12 24
Case for process engineering. F. D. Seaman .....Mar. 31 118
Comparison of academic and industrial engineering salaries (A).....June 9 105
"Control engineer" comes of age (N) .....June 16 19
Deserted scientists—remote missile test station points up non-technical problems of engineers .....Jan. 27 23
Development of creativity in engineering (A) .....Jan. 6 130
The elusive idea (Ed).....May 5 19
The engineer comes into his own—report .....Mar. 31 77-104
As we look toward tomorrow.Mar. 31 78
What is an engineer?.....Mar. 31 80
What about education?.....Mar. 31 82
The government steps in.....Mar. 31 82
How industry helps tomorrow's engineers .....Mar. 31 84
An engineer takes a sabbatical **Mar. 31 86**
How the engineer can go back to school .....Mar. 31 88
Why people do what they do.Mar. 31 89
The engineer and the social scientist .....Mar. 31 93
When the engineer designs for man .....Mar. 31 97
Economics . . . and the engineer .....Mar. 31 100
The engineer vs security.....Mar. 31 102
Engineers may need "get-togetherness" (N) .....June 16 23
An engineer's profile .....June 16 33
Engineers protest decreased increases (N) .....Jan. 6 38
Engineer shortage with us until 1960 (N) .....Jan. 6 35
Engineers air views on management (N) .....Jan. 6 39
Engineers, do your own writing (A) .....Jan. 20 131
Equation: good engineer equals bad executive (N) .....May 12 21
French engineers hope new regime sparks design boom (N).....June 23 21
French engineers take no back seat (N) .....Mar. 3 19
French speed engineer study (N) .....Mar. 24 26
A good name, "environmental engineering" (D).....May 26 20
The Great God New (Ed).....May 12 71
How can engineering conventions be improved?—Points of View...Apr. 7 34
"How do European-trained engineers compare with American-trained engineers?"—Points of View....Feb. 24 38
How does your reading rate?..Jan. 27 26
How to take your engineering license with you (A) .....Mar. 3 120
How valuable are training programs? (N) .....Mar. 17 21
Industry cuts back on recruiting of college engineering and science graduates (D) .....May 5 9
Invisible roadblocks to invention. H. R. Johnson .....Feb. 10 34
Learning is Power (Ed).....June 30 13
Licensing road to foreign markets (N) .....May 26 53
Lost in a maze of materials?—materials department will tell you which metal or plastic to use. N. J. Petrella .....June 30 20
Man of Distinction (Ed).....June 16 15
NSPE has beady eye for pay proposal (N) .....Feb. 24 28
OEEC reports on engineer shortage (N) .....Jan. 27 28
OEEC seeks to boost supply of European engineers (N) .....June 16 21
Preparing a paper (A).....June 23 143
Professional registration. J. D. Constance .....June 9 60
Quick check for writing "instructions." H. E. French (RS) .....Mar. 3 85
Recognition and the engineer (P) .....Mar. 17 61
Relieve your engineering shortage (A) .....Mar. 31 185
Should Congressional committees hire staff engineers to assist in research and development evaluation?—Points of View .....May 19 32
Should the engineering profession adopt collective bargaining techniques—Points of View .....Apr. 21 36
Should engineers be retired automatically at 65?—Points of View.Feb. 10 40
So you want to work abroad! B. A. Leerburger Jr. .....Jan. 27 34
"Subliminal perception" (N)...Feb. 3 19
Undergrad engineers need broader base (N) .....June 30 19
Westinghouse engineers vote against affiliation with company union (N) .....Jan. 13 22
What should an engineer learn and unlearn to become a good manager? —Points of View .....Mar. 10 42
WHICH: how or why? (Ed)....Jan. 6 55
Why degrade civil service work? (P) .....June 23 65

Engines and Engine Control

Aluminum V-8 automotive engine (N) .....June 16 25
Booster braking system, operated by exhaust gas (D).....Feb. 10 12
Diesels designed for rebirth (PD) .....Feb. 17 78
Dome-shape combustion chamber is key feature of new British engine (D) .....June 23 19
"Electronic heat engine" to convert heat into electricity (D)....Apr. 28 33
Engine filtration unit (D).....June 23 20
First outboard diesel engine (T) .....Feb. 10 38
Gas turbines—their design future .....May 5 22
Heavy Army engines will be compression-ignition units by 1962 (D) .....Feb. 10 7
Internal combustion engine has space potential, missile engineer says (N) .....May 19 26
Materials that can help reduce corrosion in gas-turbine engines (D) .....Mar. 24 7

(A) Abstract. (C) New Components. (D) Developments. (DS) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (RS) Reference Book Sheets.
(SP) Significant Parts. (T) Trends in Appearance Design.

Military orders gas turbines for helicopters (N) ..... May 19 22
Miniature gas turbine (SP) ..... May 19 39
Modified engine compresses air (PD) ..... Mar. 3 65
Pinch & roll process cuts compressor blade cost (N) ..... June 2 25, June 9 23
Portable combustion-tester for diesel engines (D) ..... June 16 8
Seriousness of low-temperature problems (D) ..... June 9 19
Small rocket engine to test ceramics, parts (N) ..... June 16 21
Six-cylinder Kromhout diesel engine from Holland (T) ..... Mar. 24 37
Smithsonian Institute reconstructs extinct engines (N) ..... Apr. 14 23
Starter for turbo-engines—in U. S.—hydraulic; in USSR—gas turbine (PD) ..... Feb. 3 66
Turbine wheel cost cut from $4000 to $100 ..... May 5 29

Etching

Chemical milling. C. H. Lundquist ..... Feb. 3 50

Explosives

Explosives become portable power packs. A. R. Gardner ..... Jan. 6 56

Extruding

Cold extrusion—major trend in metal working (D) ..... Mar. 31 36
First successful cold extrusion of titanium (D) ..... Apr. 28 34
Hydraulic extrusion Soviet style. Eugene Gros ..... May 12 94
Pellet extrusions beef up magnesium structures. Foerster & Johnson ..... May 12 80
Stronger magnesium extrusions coming (N) ..... Mar. 24 29

—F—

Fastening

Fastener checklist (DR) ..... Mar. 3 82
Metal fasteners have plastic heads (SP) ..... June 2 33
Powder-actuated fastening tool (N) ..... Feb. 10 23
Reusable blind fastener (SP) ..... June 30 27
Serrated polyethylene studs (SP) ..... Jan. 13 40
17 pre-assembled fasteners (DR) ..... June 9 78
Triple-seal fastener (C) ..... Mar. 31 131
Weld-filled bolts (D) ..... Mar. 17 18

Filters

Engine filtration unit (D) ..... June 23 20
Oil filters that capitalize on static electricity (D) ..... Apr. 28 34

Finishes, Chemical

Coatings for metals in temperature to 2400 F. (A) ..... May 12 149
Du Pont family of red pigments makes debut (N) ..... June 9 25
Molybdenum gets 2300-F coating (N) ..... Jan. 13 21
Magnesium protected by alloying with other elements that migrate to the surface (D) ..... May 12 19
New oil-free baked finish for appliances (D) ..... June 2 7
One-dip conversion coating for zinc (SP) ..... June 30 27
Two coated products: aluminum-coated steel wire and copper-plated aluminum strip (D) ..... Feb. 17 18
Which coating at high temperature? G. D. Oxx Jr. ..... Jan. 20 61

Finishes, Mechanical

Rotors without fishpaper slot insulation (D) ..... May 5 6
Transparent enamels for stainless steel (D) ..... Mar. 10 12
Vanal linings—protection for silicon carbide at 3000 F (D) ..... Apr. 7 10
Which coating at high temperature? G. D. Oxx Jr. ..... Jan. 20 61

Finishes, Plastic

Cellulose-base finishes (C) ..... Mar. 31 131
Plastic coating need not pose explosion hazards (D) ..... June 23 20
Porcelain coatings on steel. Fussell & Tripp ..... Feb. 17 75
Sprayed reinforced plastics ..... Jan. 13 17
Transparent epoxy resins as finishes for metal parts (N) ..... Feb. 17 23
Triple-threat plastic coatings (N) ..... Jan. 13 11

Finishing

Friction heat put to work in wood finishing (D) ..... Apr. 21 8
How to barrel-finish eggs (A) ..... Feb. 17 152
Polishing need not deform metal surfaces (N) ..... Apr. 7 13
Porcelain coatings on steel. Fussel & Tripp ..... Feb. 17 75
Which finish for zinc die castings. Ray Stricklen ..... Mar. 3 59

Fluid Mechanics

Cast-in tubing. H. L. Kee ..... May 12 76
Fluid dynamics moves ahead (N) ..... May 5 12
How much horsepower to pipe liquids? (RS) ..... Jan. 6 89
One way to measure temperature of hydraulic lines. J. H. Famme ..... Mar. 3 58

Fluids

Electrically conductive fluids are opening (D) ..... June 23 19
Hydraulic systems at elevated temperatures (A) ..... Apr. 28 147
Maintenance advice for fluid circuits. Pippenger & Koff ..... Mar. 17 71
National Fluid Power Association semiannual meeting (N) ..... June 23 25
Perfluorinated compounds make possible weight savings up to 75% (D) ..... Jan. 20 17

Forging

Fused quartz can be forged to shape (D) ..... Mar. 31 35
Vacuum steel grows up. J. H. Stoll ..... May 26 70

Forming

Bed of forming machine (T) ..... Apr. 7 36
Cold-forming—major trend in metalworking (D) ..... Mar. 31 36
Nickel electroforms (N) ..... Mar. 24 24
Pinch & roll method of making compressor blades (N) ..... June 2 25, June 9 23
Post-formed phenolic laminates. Harry Storch ..... Feb. 17 66
Pressing can make complex shapes. C. C. Higgins ..... Jan. 6 62
Roll-forming process promises better tapped holes (D) ..... Mar. 31 36

Fuels

Cleaner fuels arrive (N) ..... May 26 26
Coal research center to be built in Pittsburgh (N) ..... Apr. 7 12
Explosives: portable power packs. A. R. Gardner ..... Jan. 6 56
Fuel-level sensor (SP) ..... May 19 38
LP gas as portable power source (D) ..... Apr. 14 19
Manganese antiknock compound (D) ..... May 26 20
Nitro-paraffin fuel components could double power output (D) ..... June 2 5
Octane ratings will go up, but more slowly (D) ..... May 19 5

Fuses

Fuses do this. J. C. Lebens ..... Jan. 6 64

—G—

Gear Drives

Jeweled one-way drive (D) ..... Jan. 13 6

Gears

Angular accuracy in precision gear trains. Ferdinand Freudenstein ..... June 9 70
Avoiding problems in gear train design (A) ..... June 9 105
Contact ratio for involute gears. E. A. Niemann (RS) ..... June 9 81
Design of noncircular gears (A) Feb. 17 152
Double-enveloping worm gearset for radio telescope (N) ..... June 9 24
Dynamic gear tester. Jack Beiger ..... Jan. 20 69
Gears compute coil-winding data (PD) ..... Apr. 14 68
Lubricant (D) ..... May 12 19
Method for continuously adjustable gear ratios (A) ..... Jan. 6 130
Miniature speed reducers for light duty (C) ..... Jan. 6 93
Multi-contact, full fillet, spheroid bevel and spur gears (SP) ..... June 30 26
Skew-axis gearing (A) ..... Jan. 6 130
Titanium gears with surface durability (D) ..... May 12 20
12 ways to load-test gears. Gene Shipley ..... Jan. 6 77

Generators

Masers go to work in new signal-generators (D) ..... Mar. 24 7
Spiral bevel-gear generator (T) ..... May 5 38

Glass

Seek hi-temperature aircraft windshields (N) ..... June 16 24
Selection of glass reinforcement for plastics (A) ..... Feb. 3 124
Use glass fibers to pipe light (D) ..... May 5 6
Window glass that stands high temperature (D) ..... Apr. 7 5

Government

Air Force logistics handled by computer (N) ..... May 5 21
All-out drive for scientists (N) ..... Jan. 13 24
Anti-recession drive to put military orders in labor surplus areas (D) ..... Mar. 24 11
Army's maintenance problem: how to keep things simple (N) ..... Apr. 28 35
Basic research to get $30 million more (D) ..... Mar. 10 11
Better tax writeoff sentiment growing (D) ..... May 19 7
Brussels Fair still setting up exhibits (N) ..... May 19 23
"Businesses opportunities" exhibit (D) ..... June 16 7
Civilian control of space experiments (D) ..... Mar. 10 11
Congress will be voting on key legislation (D) ..... June 2 6
Congressional probes into government R&D programs (D) ..... Jan. 27 11
Copyright code could crimp translations (N) ..... Mar. 10 27
Defense Dept. attacks contractor ads for engineers (N) ..... May 5 21
Defense spending boost is in the works (D) ..... Mar. 24 11
Eisenhower's reorganization proposals—central control shaping up for military R&D (N) ..... Apr. 28 37
Eisenhower's reorganization proposals—Congress to okay military reorganization (D) ..... June 30 7
Eisenhower's reorganization proposals—Congress will object (D) ..... Apr. 21 11
Eisenhower's reorganization proposals—Power to promote to top command ranks (D) ..... Apr. 21 11
Eisenhower's reorganization proposals—new R&D agency would be created (D) ..... Apr. 21 11
Eisenhower's reorganization proposals—shake-up of present military way of doing business (D) ..... Apr. 21 11
Electronic and engine makers: future primes? (D) ..... May 19 7
Engineer comes into his own—report ..... Mar. 31 77-104
The government steps in ..... Mar. 31 82
The engineer vs security ..... Mar. 31 102
Federal outlays for basic research boosted by Congress (D) ..... Apr. 7 9
Federal subsidies for aid to education (D) ..... Mar. 24 11
Four-year "emergency" aid-to-education program (D) ..... Jan. 27 11
Fresh water from salt program pushed by western states congressmen (D) ..... Apr. 7 9
Hearings on the 1951 renegotiation act (D) ..... June 30 7
Jr. Rocketeer savvy spurs Army-ARS safety programs (N) ..... Mar. 24 25
Kern County, Calif. protests NOTS (N) ..... Feb. 17 20
Killian's influence soon tested (N) ..... Feb. 3 19
Military may tighten up on weapon development (D) ..... June 16 7
Military R&D, outer space, rivalries, projects (N) ..... Mar. 31 41
Mines on the moon? Congress is interested (N) ..... June 16 10
More labeling controls on the way (N) ..... June 30 11
NACA space agency proposals (N) ..... Apr. 21 22
NSPE has beady eye for pay proposal (N) ..... Feb. 24 28
National Science Foundation: it's suddenly popular (P) ..... Mar. 3 47
NSF will sponsor meeting of top researchers and economists, May 20 (D) ..... Mar. 24 11
Navy qualifying Air Reservists as Missileers (N) ..... Mar. 31 38
Navy's guided missile sub (N) ..... May 5 21
Navy will pump more money into conversion of heat to electricity through thermocouples (D) ..... May 5 9
New names, faces and offices in nation's capital (N) ..... Jan. 6 36
1959 budget: military, science get more (N) ..... Jan. 27 25
150-man office to coordinate all Army research (D) ..... Mar. 10 11
Our long weapons-development lead time (P) ..... May 12 67
Patent policy for atomic energy under attack (D) ..... May 5 9

(A) Abstract. (C) New Components. (D) Developments. (DS) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (RS) Reference Book Sheets.
(SP) Significant Parts. (T) Trends in Appearance Design.

Pentagon to copy British system of weapons development . . . but British hope we won't do it (N)..Jan. 20 19
Post Office Dept.—mechanization moves in to speed sorting the mails (N) May 12 22
Program of translating Russian journals (D) .....Feb. 10 11
Railroad legislation (D) .....June 16 7
S. 3126: what will it do? (P)..June 9 53
Secrecy cloak on Gaither Report shows R&D lining (N) .....Jan. 20 22
Small business to get new regulations (D) .....June 16 7
State Dept. plans science attaches (D) Feb. 10 29
Talk of new military supply office (D) Feb. 10 11
Tariff protection for lead and zinc producers controversy (N) .....Jan. 6 35
Technical information control system—report from VSF (D).....Feb. 24 11
Third-stage rocket for Vanguard (D) Apr. 7 9
US catching up on translation of foreign publications (N) .....Feb. 10 29
War games point to future equipment design .....June 30 14
Washington budget review: production, R&D for military on rise (N)..Apr. 14 24
Washington will bear close watching this year (D) .....Jan. 13 7
Which agency to control outer-space exploration? (D) .....Feb. 24 11

Graphical Techniques

Gray iron castings. Cast iron—new data—report. C. F. Walton & others .....Jan. 20 52
How to plot and read a carpet curve. Alexander Krivetsky (RS) ...Mar. 31 127
New coefficients predict wear of metal parts. Ernest Rabinowicz ....June 23 71
Thermal radiation from hot surfaces. G. V. Thompson .....Mar. 31 116
How wrong can elastic constants be? S. A. Gordon .....Jan. 6 68
Updating the K-factor formula for pressure drops in air valves. Dahle & Miller .....Apr. 14 74

Gravity Research

Cosmic chemistry (N) .....Feb. 10 14
Crutches won't help cross a design roadblock (Ed) .....May 19 17
Design intercontinental radio communication via the moon (N) .June 9 24
Engineering problems 6200 miles up (A) .....May 26 123
How much fuel for a trip to the moon (N) .....Apr. 21 16
Man in space—research plane points way (D) .....June 30 7
Maser—souped-up energy at work (N) Jan. 13 10
Masers go to work in new signal-generator (D) .....Mar. 24 7
Mines on the moon? (N).....June 16 10
Our moon won't be first stop, says Columbia scientist (N).....Mar. 10 14
Planning for trips to the moon (N) Mar. 24 14
Russians shoot the sun (N)....June 2 18
Space ship structure weight must be reduced (N) .....May 19 10
Surface-gravity measurements (N) Feb. 10 14
Where does "outer space" begin? (N) June 2 10

Grinding

Adjustable work height feature of new grinder (D) .....June 30 8
Diamond grinding wheels promise new small, closer-tolerance ground slots (D) .....June 9 19
Drill grinder from Germany (N)..June 2 16
Grinder cycles automatically (PD) Jan. 20 67
Grinder supports reduce vibration (PD) Mar. 17 85
Grinding machine—Swedish design (T) Feb. 24 37
Grinding of drill bits to be mostly electrolytic (N) .....June 2 18
Weldments make low-cost rigid frame for vertical grinders (PD)....Jan. 6 76

—H—

Human Engineering

Can we man our machines better? MIT aims to find out (N) .....June 2 23
Designing controls for human use (A) Apr. 14 138
Engineering design and human limitations (A) .....Jan. 6 130
NAA designing man into the "driver's seat" in future aircraft (D)..Jan. 27 8
Seats for mobile equipment designed for minimum fatigue (T) ...Jan. 13 36
When the engineer designs for man. Dr. M. Rappaport .....Mar. 31 97

—I—

Industrial Design

Aerial stairway for fire-fighting (N) Mar. 24 24
Appliance hose that won't shrink under pressure (D) .....Apr. 14 20
Automobile wheel balancer (T)..Mar. 10 39
Belt design pointers (D).....Apr. 7 10
Channeled-and-clad plate (SP)..Mar. 10 48
British design (T) .....June 30 22
Closures, new types (D) .....June 30 5
Coffee grinder from Holland (T) Mar. 24 36
Coil-winding machine (D) .....Jan. 6 34
Coiled heater cord (SP).....June 2 32
Coming up in '58 (N).....Jan. 13 11
Compensates for wear (SP)....May 5 43
Controlled shaft rotation with electro-mechanical device (SP).....June 30 26
Cooling systems that are simpler (D) Jan. 6 33
Dangerous trends in product styling (D) .....Jan. 27 8
Dictating machine (T) .....Apr. 21 38
Electrogyro shunting locomotive (D) Feb. 10 12
Extruded teflon wire (SP).....Feb. 10 43
Fan, Airoulette (N) .....June 2 17
Fan, desk (T) .....June 16 34
Fertilizer spreader features folding hood (PD) .....Feb. 3 68
Fire extinguishers, rocket-powered (D) Jan. 13 5
Food mill from Holland (T)....Mar. 24 36
Garden equipment—designing for a family look (T).....June 2 20
Gasoline is coolant in auto refrigerator (D) .....Apr. 21 7
Hex nut and spring washer (SP) May 19 39
Holland—trends in appearance design (T) .....Mar. 24 36
Holland using key telephones (N) Apr. 7 30
Hook-and-eye construction fastener (T) June 16 34
Imprinting machine (T) .....Apr. 21 39
Indexing table, mechanical (SP) June 16 39
Industrial heating elements with high efficiency (N) .....Jan. 6 37
Intensifier converts air to hydraulic pressure at ratios to 225:1 (C) .....June 23 101
Italian machine produces for bracelets or chains (N) .....June 2 17
Knobs and dials—new design data (D) June 9 20
Lab-sized furnace for home-grown crystals (N) .....May 19 10
Leipzig Fair spotlights Soviet lag in product design .....Apr. 7 22
Locomotive, diesel-hydraulic, from Britain (T) .....June 30 23
Measurement-by-weight (SP) ..Jan. 13 41
Micro-microphone (N) .....June 2 16
Microwave absorbers (N)...May 5 16
Miniature reflection pickup (SP) June 16 39
Mower costs cut with castings (PD) Apr. 28 89
Must the consumer have a new model every year?—Points of View .June 2 30
Nut that punches its own hole (SP) Mar. 24 38
Nylon zipper (D) .....June 16 8
Oil heater from Holland (T)...Mar. 24 36
Packaging machine—Swedish design (T) .....Feb. 24 37
Parabolic reflector (N) .....Apr. 14 25
Peeling machine for wieners (PD) June 9 64
Plastic boat, reversible (N) ....June 2 22
Power hand tools (T) .....May 19 34
Precision flow-measurement system (C) .....June 23 101
Projector threads itself (PD)...Apr. 14 67
Propane-burning equipment — Swedish designs (T) .....Feb. 24 36
Roll coverings replaced or repaired by segments (SP) .....Mar. 24 39
Rotating scanning plate (SP)...Feb. 24 40
Scale computes weight correction (PD) Mar. 17 82
Seats for mobile equipment designed for minimum fatigue (T).....Jan. 13 36
Self-mending heating element (SP) May 5 42
Servo system (SP) .....Jan. 27 44
Sewing machine, industrial (T).Jan. 27 42
Sewing machines—versatile versus portable (PD).....May 12 82
Skew rollers feed debarker (PD) Jan. 20 68
Soldering iron, electrical (N)....June 2 17
Solenoid with adjustable control (SP) Apr. 7 41
Sound-film recorder—Swedish design (T) .....Feb. 24 34
Space heater (T) .....May 5 38
Speed, pressure, heat and flow control system (SP) .....June 2 33

Six-spindle automatic lathe (T) May 5 38
6 spring-loaded chucks (and) holding fixtures. Sigmund Rappaport (DR) Jan. 20 86
Test ring rates casting machine (PD) Mar. 3 64
Textile plaiting machine from Britain (T) June 30 23
This mill rolls superalloys (PD) Feb. 3 65
Tool engineers press for reliability (N) May 19 22
Transfer machine redesign speeds automation (PD) Mar. 3 63
Universal radial drilling and boring machine (N) June 2 17
Westinghouse Machine-tool forum highlights static controls (N) May 12 25

Magnesium

Pellet extrusions beef up magnesium structures Foerster & Johnson May 12 80
Protective coating formed by alloying with other elements that migrate to the surface (D) May 12 19
Stronger magnesium extrusions coming (N) Mar. 24 29

Magnets

Hermetic magnetic couplings. D. A. Guerdan Apr. 28 98
Rare-earth garnets show magnet secrets (N) Jan. 27 14
Shortcut for holding-magnet design (A) Jan. 20 131

Materials Handling

Conveyor kneads as it pushes (PD) June 23 77
Scale car for steel mill has hydraulic load cells (PD) Mar. 31 110
7 basic selectors for parts. P. C. Noy (DR) May 12 96

Mathematics

Angular accuracy in precision gear trains Ferdinand Freudenstein June 9 70
Department of scientific confusion (A) Jan. 20 131
Latin squares for fewer tests—same accuracy. D. N. Chorafas May 12 92
Linear programming can be easy math. G. F. Hadley Mar. 3 55

Metals, Ferrous

Cast iron—new data report Gray iron castings. C. F. Walton & others Jan. 20 52
Cost patterns are changing (N) Apr. 7 13
Intermetallics at work June 9 72
Lead ferroelectrics, and procelain enamels (D) Apr. 14 19
New family of spring alloys (D) Jan. 20 18
Polishing need not deform metal surfaces (N) Apr. 7 13
Pure iron processes developed in Canada (D) Feb. 10 12
Rare earth garnets show magnet secrets (N) Jan. 27 14
Refractory metal alloys at ¼ present costs (D) June 23 19
Self-lubricating bronze parts up to 12 in. (D) Apr. 28 34
Sintering concepts contradicted (N) May 26 24
Soviet metals research (N) Mar. 10 28
Strong, dense cermets (N) June 2 22
There are no "non-sparking" metals (D) Jan. 20 18

Metals Ferrous see also **Steel**

Metals, Nonferrous

Chromium metal parts for service at 1700 F (D) June 16 8
Cost patterns are changing (N) Apr. 7 13
Critical metals no longer "critical" (N) Feb. 24 17
Exotic metals go to work (D) Mar. 3 18
Exotic metals seek employment. A. R. Gardner Mar. 17 66
Explosives will form tungsten (D) Jan. 27 12
Fused quartz (N) May 5 16
Fused quartz can be forged to shape (D) Mar. 31 35
Heavy-metal alloy (D) Apr. 21 8
Intermetallics at work June 9 72
Isotope of nobelium confirmed (N) June 2 10
Lab-sized furnace for home-grown crystals (N) May 19 10
Lead, zinc industries to spend more for research (N) May 5 30
Magnetic materials (N) June 30 10
Metallorganics are heading for the limelight (D) Apr. 7 5
New crystals for optical, electronic and nuclear use (D) Jan. 27 8
New uses for selenium and tellurium (D) May 26 20
Nickel electroforms (N) Mar. 24 24
Nicotung, new high temperature alloy (N) May 19 25
Polishing need not deform metal surfaces (N) April 7 13
Rare-metal separation processes (N) Mar. 10 16
Rare prices going down (N) June 16 11
Refractory metal alloys at ¼ present costs (D) June 23 19
Rhenium metal under study in USSR (D) Jan. 27 12
Samarium is looking for jobs (D) Jan. 27 7
Sintering concepts contradicted (N) May 26 24
Soviets metals research (N) Mar. 10 28
Strong, dense cermets (N) June 2 22
Tantalum as a heavyweight contender (D) May 5 6
There are no "no-sparking" metals (D) Jan. 20 18
Zinc makers planning major R&D program (N) Jan. 6 35
Zirconium components in automatic control valves (N) May 19 12

Metals, Nonferrous see also **Aluminum, Magnesium, Titanium**

Meters

Digital voltmeter (SP) Jan. 27 45
Flowmeter unaffected by temperature (PD) May 12 85
Liquid-filled potentiometer (SP) Apr. 7 41
Microminiature potentiometers (SP) Mar. 10 49
Ohmmeter from Britain (T) June 30 23
Potentiometer with dial (SP) Mar. 10 49
Recording galvanometer (D) Feb. 24 12
Wattmeter monitors and controls power (C) June 9 85

Missiles

A-powered, winged missile top war deterrent? (N) Apr. 21 29
ASME, ARS tussle with problems of flight design (N) Apr. 14 22
Atlas could power 4-man space station 400 mi. away by 1963 (N) May 19 21
Bromo-Seltzer cures missile headache (N) Jan. 13 24
Cape Canaveral test center to be expanded (N) Apr. 28 36
Civilian control of space experiments (D) Mar. 10 11
Communication and guidance in space (A) May 12 149
Control of Jr. Rocketeers recommended (N) Apr. 21 27
Control systems for rockets (N) May 5 12
Crutches won't help cross a design roadblock (Ed) May 19 17
Deserted scientists—remote missile test station points up non-technical problems of engineers Jan.27 23
Dummy Polaris gets test (N) May 19 25
Electronic and equipment makers: future primes? (D) May 19 7
Explorer design—Redstone to Sergeant to satellite (N) Feb. 24 23
Explorer nose cone tested (N) Mar. 17 21
Explosives: portable power packs. A. R. Gardner Jan. 6 56
Free-radical rockets (D) June 2 5
Great Britan slashes funds for rocket range (N) Jan. 6 38
Ground guidance system for Atlas contract awarded (N) Feb. 17 23
Ground support equipment being set for standardization (D) May 19 7
Guides for Thor go in production (N) Feb. 17 22
Gyro test table "stops" earth in inertial space (PD) Jan. 20 64
How much fuel for a trip to the moon (N) Apr. 21 16
Internal combustion engine has space potential, missile engineer says (N) May 19 26
Ion propulsion moves a step closer (N) Feb. 24 14
Jr. Rocketeer savvy spurs Army-ARS safety programs (N) Mar. 24 25
Latest thing in satellites—gas-filled plastic bag coated with aluminum foil (D) Mar. 3 17
Liquid-fuel rockets—another Soviet first? (N) Jan. 27 30
Man in space (Ed) Feb. 10 19
Microwave command guidance system tests U. S. air defenses (N) Apr. 28 39
Missiles are better than ever (N) Mar. 3 22
NACA space agency proposals (N) Apr. 21 22
Navy book tells how to track missiles (N) Jan. 27 32
Navy designs special subs for Polaris (N) Feb. 24 28
Navy's guided missile sub (N) May 5 21

(A) Abstract. (C) New Components. (D) Developments. (DS) Design Roundup. (Ed) Editorials.

New types of closures (D).....June 30 5
Nylon-clad sleeve bearings. Penney & Bockhoff .....Mar. 3 52
Nylon cord price drop (N).....June 30 11
Oil filters that capitalize on static electricity (D) .....Apr. 28 34
Organo-tin compounds (D).....June 9 19
"Permanent" germicides (D)...May 5 5
Plastic foam can make a poured package (N) .....Mar. 24 16
Plastics for abrasion resistance. Jean Pierre Abbat .....Mar. 31 105
Plastics for ultrahigh temperatures (D) .....June 16 5
Plastics from the feed bin? (N)..Mar. 24 16
Plastics from sugar (D).....Feb. 24 7
Plastic glossary
I Guide to fluorine plastics..Apr. 21 17
II Nef families .....May 5 16
Plastic mesh continuously produced (D) .....May 12 19
Polycarbonate resin (A) .....May 12 149
Polyethylene: better and maybe cheaper (N) .....Apr. 21 17
Polyethylene parts weighing nearly 2 tons (D) .....Mar. 24 8
Polyethylene treated with chromic acid improves its bonding properties (D) .....Jan. 6 33
Post-formed phenolic laminates. Harry Storch .....Feb. 17 66
Reinforced epoxy pipe (SP) ...Mar. 10 49
Reinforced Teflon in molded parts (C) .....Mar. 31 132
Resin service temperatures now up to 2500 F (N) .....May 5 16
Reversible plastic boat (N)....June 2 22
Rods and tubes of rolled reinforced plastic (SP) .....Feb. 24 41
Seek hi-temperature aircraft windshields (N) .....June 16 24
Selection of glass reinforcement for plastics (A) .....Feb. 3 124
Sleeper compartments of plastics (PD) .....Mar. 31 115
Sprayed reinforced plastics....Jan. 13 17
Stage competition for design of plastic products (N) .....May 26 25
Steel-reinforced plastics (D)....Jan. 6 33
Styrofoam astrodomes (N) ....June 23 21
Transparent epoxy resins as finishes for metal parts (N).....Feb. 17 23
Transparent plastic for machine parts (N) .....Feb. 10 16
Urethane foam for Helicop-Huts (N) .....Feb. 3 22
Urethane foams expand into autos (N) .....June 2 11
Vinyl-clad steel sheeting (N)...Mar. 24 16
Vinyl combination for jump seats (N) .....Jan. 27 17
Weather-resistant polyethylene (SP) .....Feb. 10 43
Wood-flour-filled urea (A).....June 23 143
Woven foam for warm-air humidifier (N) .....Mar. 10 16

Plating

Bright-plating process for antimony (D) .....Apr. 14 20

Pneumatics

Fan selection guide.....Apr. 28 92
Valve with a memory handles logic circuits. R. J. Cameron.....May 26 76

Powder Metallurgy

Ceramic and powder-metallurgy techniques to provide fuel elements for new-type nuclear reactors (D) .....Apr. 7 6
Field widens for powdered metal (N) .....May 19 12
Powdered-tin mystery (N) ....June 16 10
Russians turning to "protective vacuum" (D) .....June 16 8
Unusual metal powders (D).....June 30 8

Presses

Offset press (T) .....June 16 34
Redesigned press molds plastic (PD) .....May 12 82

Printed Circuits

Silver migration in printed circuits under study (N) .....June 16 11

Product Development

Construction field offers new markets (D) .....Feb. 10 8
The designing peddler (Ed)....Apr. 21 19
Development by calculation or test? (A) .....Feb. 3 124
Don't let salesmen plan your products. I. P. Sharpe .....Apr. 21 35
Finagle's Laws . . . or why nothing in research and development happens the way it should.....Apr. 21 32
The "have-nots" begin to "have" (Ed) .....Mar. 3 51
How you can buy TIME. Roy McCullough .....Apr. 7 32
Invisible roadblocks to invention. H. R. Johnson .....Feb. 10 34
The pace of change (Ed).....Feb. 24 21
The red rockets' glare (Ed).....Apr. 28 79
Should you use outside inventors? G. S. Hastings .....Jan. 13 29
What better mousetrap? (Ed)...Apr. 7 17
Who should have responsibility for new-product planning?—Points of View .....Mar. 24 34

Professional Trends

Equation: good engineer equals bad executive (N) .....May 12 21
Man is a product too (Ed).....Mar. 10 21
Recipes for top research management (N) .....June 23 22

Publisher's Postscript

Engineer your reading.....Jan. 27 56
How fast will we grow—and what industries will grow fastest?...June 30 32
How's this for timing?.....June 2 40
A man lived by the side of the road . . . and sold hot dogs.....Apr. 7 48
A new service—built for you... May 5 52
A new SERVICE for YOU.....Feb. 10 52
Our index is ready.....Mar. 10 60
Reading—the high-dividend investment .....Apr. 21 48
Reading pays off.....Jan. 13 52
R & D marches on.....June 16 48
Stand tall—and see abroad.....Feb. 24 48
Where are we heading?.....Mar. 24 48
Your eyes and ears on the move..May 19 48

Pumps

Balanced-vane pump for 2000 psi hydraulic service (C).....Mar. 17 103
Diaphragm pump delivers oil-free air (C) .....Feb. 3 85
Midget pump with capacity of 31 gpm (D) .....Apr. 7 10
Vane pumps do auto transmission job (PD) .....June 23 74

—R—

Radio and Television

Germans put TV in console (PD) .....Feb. 17 82
In-the-ear radio developed in Germany (D) .....Feb. 24 12
Mobile monitor (N) .....June 2 16
Televise X-ray exams (N).....Apr. 21 26
Whistlers for better radio transmission (N) .....Apr. 21 16

Rectifiers

Semiconductor rectifiers — germanium and silicon take the lead. R. A. York .....May 12 89
Silicon-controlled rectifier, new dc power supply (D) .....May 12 20
Silicon-controlled rectifiers (D).Feb. 3 17

Relays

Glass-encased relay (SP).....Jan. 13 41
Magnetic-ball relays (SP).....Feb. 24 40

Research

Basic research pays off—formula used by AT&T .....Feb. 24 31
Basic research to get $30 million more (D) .....Mar. 10 11
Cavitation detector aids research (N) .....Mar. 17 20
Coal research center to be built in Pittsburgh (N) .....Apr. 7 12
Cold storage improves gasoline (D) .....Mar. 3 18
Communicate by ultraviolet? (D) .....May 26 20
Copyright code could crimp translations (N) .....Mar. 10 27
Electrical-equipment research contracts (D) .....Mar. 10 8
Federal outlays for basic research boosted by Congress (D).....Apr. 7 9
Finagle's Laws . . . or why nothing in research and development happens the way it should.....Apr. 21 32
First independent commercial center for radiation processing and research (D) .....Feb. 17 17
Fresh water from salt program pushed by western states congressmen (D) .....Apr. 7 9
High school IRBM (Ed).....June 2 15
How you can buy TIME. Roy McCullough .....Apr. 7 32
IGY research on low-temperature specifications (D) .....June 9 19
Individual invention—a lost art? Dr. W. J. Kroll .....Feb. 24 32
Lead, zinc industries to spend more for research (N) .....May 5 30
Lone invention—no lost art. J. W. Lincoln .....June 2 26
Motivation research: what's in it for you? A. R. Gardner.....Jan. 13 38
Motivation research—Why people do what they do. A. R. Morrow..Mar. 31 89
National Science Foundation: it's suddenly popular (P) .....Mar. 3 47
NSF will sponsor meeting of top researchers and economists, May 20 (D) .....Mar. 24 11
150-man office to coordinate all Army research (D) .....Mar. 10 11
Our long-weapons-development lead time (P) .....May 12 67
Production may be down, but not R&D (N) .....Feb. 17 19
Recipes for top research management (N) .....June 23 22
The red rockets' glare (Ed).....Apr. 28 79
R&D spending soars despite recession .....Apr. 21 21
Russians announce new science city (N) .....Apr. 21 30
Science information bottleneck worldwide (N) .....June 23 22
Soviet metals research (N).....Mar. 10 28
Weather — can we design world weather? .....Mar. 24 23
Who owns the results of basic research underwritten at a university?—Point of View .....Jan. 13 32

Rubber

Better rubber heads for market (N) .....Apr. 21 17
"Caged" chemicals—new route to better rubber (N) .....June 2 11
"Heavy" rubber from deuterium (D) .....June 16 5
High-temperature aircraft tires (D) .....Apr. 7 5
High-temperature fluorocarbon rubber (C) .....Apr. 14 89
Molded silicone rubber parts. D. P. Spalding .....Apr. 14 69
"Permanent" germicides (D)...May 5 5
Rubber cushions when bearings must be quiet. R. E. Downes.....Apr. 28 96
Rubber disks replace coil springs on mine cars (D).....June 2 7
Rubbers that can take 600 F (D) .....Mar. 24 7
Tin rubbers (D) .....June 9 19

—S—

Safety

Automatic dryers—unforeseen fire hazards (D) .....Mar. 17 17
Flameproofing compounds (D)..Apr. 14 19
Jr. Rocketeer savvy spurs Army-ARS safety programs (N).....Mar. 24 25
Safety when a turbine fails (PD) .....Mar. 31 111
Steering wheels made safer (N).Apr. 7 21

Sandwich Structures

Sandwich-panels. R. K. Humke
Core materials .....Jan. 20 70
Facing materials .....Apr. 28 80
Adhesives .....May 26 56

Sealing

Flange loadings (A).....Feb. 17 155
New sealing process for glass (D) .....Apr. 7 5
Porcelain-to-aluminum seal is simple but powerful (N) .....June 30 18

Seals

Metallic seal for use to 750F (D) .....June 30 5
Rotating shaft seal (D) .....Apr. 14 20
Special shape silicone rubber seals (N) .....May 26 21
10 ways to use metal diaphragms and capsules. D. C. Whitten (DR).Feb. 17 92
We threw out press fits for bearings—liquid polymer makes good as a fastener. E. F. Oblinger.....Jan. 6 67

Silicon

High-purity silicon achieved by new method (D) .....May 5 8
Price drop (N) .....June 30 11

Solar Power

Solar energy to power machine tools (N) .....Mar. 10 12

(A) Abstract. (C) New Components. (D) Developments. (DS) Design Roundup. (Ed) Editorials.
(N) Technical News. (P) Perspective. (PD) Product Design. (RS) Reference Book Sheets.
(SP) Significant Parts. (T) Trends in Appearance Design.

Solar heating for private homes in Africa (N) ....May 19 25
Soviets claim world's top solar power station (N) ....Apr. 21 30

Soldering
European solder developments (RS) June 23 97

Springs
Ceramics that bounce. R. H. Rudolph Feb. 3 76
Multi-rate helical springs. K. A. Flesher ....Jan. 20 76
Rubber disks replace coil springs on mine cars (D)....June 2 7
Spring clutches for faster response. E. V. Leonard....Apr. 14 57
Variable-section cantilever beams. Dr. K. Maier ....Feb. 17 85
3 looks at air springs (PD)....Apr. 28 86

Stamping
Welded stampings form mounting plates (PD) ....May 26 68

Standardization
Automated tools inadequately described says ASTE (N) ....May 5 21
Fiber-reinforced plastics—report. F. R. Park ....Feb. 3 69
Lubrication standards for industrial equipment (A) ....Feb. 3 12
Machine tool standards set by Big Three (N) ....Apr. 21 24
Missile ground support equipment set for standardization (D) ....May 19 7
NEMA standards for those size-reduced motors with the same power. R. Y. Newton ....Feb. 3 54
New radiation exposure limits (N) Jan. 27 14
Standard ampere is holding its own (N) Jan. 27 14
Standardizing type fonts (P)...Apr. 28 75
Standards scheduled for review (D) Jan. 6 33
System of weights and measures (P) Feb. 17 61

Steel
Automated steel scrap process still a secret (N) ....June 16 22
Casting alloy enters high-strength field. Opsahl & Sparing ....Apr. 28 84
Faster corrosion test cuts designing cost of heat exchangers (N)....June 16 26
Germans develop fast-cast steel plant (N) ....Apr. 7 21
Hard-clad rolled steel (D)....Apr. 7 6
How heat treatment affects corrosion resistance of stainless (A)...Apr. 28 147
Leaded steel. W. Simon....Apr. 14 72
Lighter-gage stainless sheet in larger widths (D) ....Jan. 13 5
Nickel-free stainless steels (D). Mar. 24 12
Porcelain coatings on steel. Fussell & Tripp ....Feb. 17 75
Selecting steels for springs (A). June 23 143
Stainless steel beat out titanium for new chemical bomber (D)....Jan. 27 11
Stainless steel sprayers (N)....Apr. 21 17
Textured steel—report. F. R. Park Mar. 17 73
Transparent enamels for stainless steel (D) ....Mar. 10 12
Vacuum steel grows up. J. H. Stoll May 26 70
Vinyl-clad steel sheeting (N)..Mar. 24 16
What the oxygen process means (N) Jan. 13 11

Stress Analysis
Flow and fracture (A)....Jan. 20 131
For studies of wear and lubrication (A) June 23 143
How to calculate stress in short cylindrical shells. Lawrence Berko (RS) Feb. 3 81
How wrong can elastic constants be? S. A. Gordon ....Jan. 6 68
Hydraulic systems at elevated temperatures (A) ....Apr. 28 147
Leaded steel. W. Simon....Apr. 14 72
Metal fatigue proclaiming its presence by producing thousands of tiny bubbles (D) ....Jan. 20 17
New coefficients predict wear of metal parts. Ernest Rabinowicz ..June 23 71
New process to reduce wear (D). May 19 8
Redesign to bypass metal fatigue (D) Mar. 17 18
Residual stress in flat springs (A) June 23 143
Shock factors for impact loads. G. H. Howell (RS) ....Mar. 17 99
Titanium stress-corrosion cracking at high temperatures (N)....Jan. 27 17
Wear of metals (A)....May 26 123

Switches
Acceleration or deceleration (SP) May 19 39
Exposed contact switches are explosion proof (SP) ....Mar. 24 39
Fully sealed switches for 1000F and above (D) ....Apr. 14 20
Rotary photoelectric switch (SP) Feb. 10 42
Switch with contacts in arc-quenching gas (SP) ....Mar. 24 39
When to use pressure switches to indicate completed movement. E. E. Opel May 26 64

—T—

Tangents
The ability to talk....June 23 141
About itches and such....Feb. 17 144
Inspiration is only 1%....Jan. 6 126
No formula—what then?....June 9 103
The reason why....May 12 144

Terminology
New words of science—a short glossary (N)
I ....June 16 10
II ....June 30 10

Testing
Air leakage through the skin of refrigerated truck trailers (D)....June 30 7
Automated inspection (N)....Mar. 17 23
Changeable jet unique flight-testing tool (N) ....Feb. 24 26
City-wide paging system started in Bethlehem, Pa. (D)....Feb. 24 8
Cooling test-chamber (D)....Jan. 13 6
Cosmic chemistry to be new science (N) Feb. 10 14
Dry land testing of ship's propulsion system (N) ....Feb. 17 22
Dummy Polaris gets test (N)..May 19 25
Dynamic gear tester. Jack Beiger Jan. 20 69
Explorer nose cone tested (N)..Mar. 17 21
Faster corrosion test cuts designing cost of heat exchangers (N)..June 16 26
Fault-finding fluoroscope (D)...Feb. 3 17
Gyro test table "stops" earth in inertial space (PD) ....Jan. 20 64
Hot Shot II—a super wind tunnel (N) May 5 12
Hydraulic pressure built up in a hurry (N) ....Apr. 7 12
Inflate tires with nitrogen to protect them from radiation damage (D) June 30 5
Infrared pinpoints pinhole leaks (N) Feb. 24 23
Low-cost sound lab (PD)....Apr. 28 91
Microwave command guidance system tests U. S. air defenses (N)..Apr. 28 39
New devices for accelerated testing (D) Mar. 10 7
Noise-maker with wide frequency range tests missile components (N). June 30 17
"Permanent" germicides for plastics, rubber and paper (D)....May 5 5
Portable combustion-tester for diesel engines (D) ....June 16 8
Rocket-powered fire extinguishers (D) Jan. 13 5
Six laboratory methods for achieving high temperatures (N)....Mar. 10 14
Solar heating on trial, in Northeast, Southwest (N) ....Mar. 10 26
Testing designs for space (N)..Feb. 3 21
There are no "no-sparking" metals (D) Jan. 20 18
12 ways to load-test gears. Gene Shipley ....Jan. 6 77
Ultrasonic test sounds out wire flaws (N) ....June 16 18

Textiles
Bonded fibers find product jobs (N) Feb. 10 16
Fiber structures for engineered parts (N) ....June 2 11
Metal-coated silica fibers (N)...June 9 20
Nylon and vinyl-fiber paper (D). Feb. 24 12
Passenger cars still use plenty of textile fibers (N) ....Mar. 10 16
Rayon from bamboo (D)....Mar. 24 12
Two new synthetic fibers: Urylon and Elena (D) ....Jan. 13 8
Wood-derived fibers for Chinese cloth (D) ....June 30 8

Timers
Design standards for timing mechanisms (D) ....Feb. 3 18
Russian "molecular clock" (D). Feb. 10 12
Timers, relays and motors (C)..Mar. 31 131

Titanium
First successful cold extrusion of titanium (D) ....Apr. 28 34
High-temperature titanium alloy (D) Feb. 24 12
Stress-corrosion cracking at high temperatures (N) ....Jan. 27 17
Titanium can be remelted (D)..Feb. 3 17
Titanium gears with surface durability (D) ....May 12 20

Tolerances
Clearance hole and drill size. C. I. Millard (DR) ....May 12 99
Equations predict chance of misfit in assembly. W. Hanka....May 26 61

Transducers, Electrical
Transducer measures angular rotation (SP) ....Jan. 27 45

Transformers
Cold-rolled transformer sheeting (D) Jan. 13 8

Transistors
Transistors give desk-size computer (PD) ....June 23 75
Will silicon carbide be the next important transistor material? (D). Feb. 24 8

Transmission, Mechanical
British develop fully automatic transmission (N) ....May 26 22
Plastic transmission belts (SP). May 5 43
Semi-flexible transmission line (SP) May 5 43
V-belt pulley with automatic torque conversion (SP) ....Apr. 21 40
Vane pumps do auto transmission job (PD) ....June 23 74

Tubing
Cast-in tubing. H. L. Kee....May 12 76
Epoxy-resin tubing with rare-earth oxides (D) ....Mar. 3 17

—V—

Vacuum Melting
Molybdenum and tungsten furnaces (D) Jan. 27 12

Valves
Check valve with inflatable rubber element (SP) ....Apr. 7 41
Electro-hydraulic servo valve (SP) May 5 42
Free poppet valve (SP)....Mar. 24 39
Hot solenoid. O. K. Smith....Jan. 6 61
Memory valve handles logic circuits. R. J. Cameron ....May 26 76
Sandwich manifolding. A. A. Dicke Feb. 17 88
Updating the K-factor formula for pressure drops in air valves. Dahle & Miller ....Apr. 14 74
Valves, welded instead of cast (D) Mar. 24 8
Varying orifice contour (SP)...Jan. 13 41

Variable Speed Drives
Adjustable speed drive (SP)....May 19 38

Vibration and Shock
New shock absorber. Sando & England May 12 86
Rheostats regulate shock absorbers (PD) ....Mar. 31 114

—W—

Water Supply
Californians pioneer in switch to desalted water (N) ....June 16 20
Canada close to pollution control (N) Mar. 10 24
Fresh water from salt program pushed by western states congressmen (D) Apr. 7 9
Salt-water conversion still (D). Feb. 24 8

Welding
"Impossible" welds in thin-gage stainless (D) ....Apr. 21 7
Inert-gas-shielded welding gun (T) June 16 34
Magnetic-force method welds vinyl-laminated steel sheet (N) ....June 30 19
Weltronic tungsten inert-gas fusion-welder (N) ....June 23 25

Solution-type reactor (N)....Apr. 21 16
Atvidaberg (Sweden)—Typewriter (T) ..... Feb. 24 35
Automatic Power, Inc.—Modified engine compresses air (PD) ..... Mar. 3 65
Automatic Transportation Co.—No mast on this lift truck (PD)..... May 26 67
Automation, Inc.—Rotary photoelectric switch (SP) ..... Feb. 10 42
Avco Manufacturing Corp.—Stepped-up tape communication (N)....Apr. 21 28
Avco Manufacturing Corp., Lycoming Div.—Military orders gas turbine for helicopters (N) ..... May 19 22
Avco Research and Advanced Development Corp.—Noise-maker will assist in missile rocket tests (N)..June 30
Aveling-Barford—Dumper from Britain (D) ..... Mar. 10 12
Baker Perkins, Inc.—Conveyor kneads as it pushes (PD) ..... June 23 77
Baldwin-Lima-Hamilton Corp.—Ball screw speeds cycling (PD)....Feb. 3
Barber-Colman Co.—Miniature ac and dc motors (C) ..... Mar. 31 132
Barden Corp.—Torque-free bearing assembly (SP) ..... June 30 26
Barnes, W. F. & John—First independent commercial center for radiation processing and research (D)..... Feb. 17
Bartlie Products Corp.—Domed sealing washer (SP) ..... June 30 26
Battelle Memorial Institute
Bright-plating process for antimony (D) ..... Apr. 14 20
First successful cold extrusion of titanium (D) ..... Apr. 28 34
How wrong can elastic constants be S. A. Gordon ..... Jan. 6 68
New uses for selenium and tellurium (D) ..... May 26 20
Rotating shaft seal (D)..... Apr. 14 20
Self-powered flashbulbs (D)...May 19 5
Six laboratory methods for achieving high temperatures (N)..... Mar. 10 14
Small rocket engine to test ceramics, parts (N) ..... June 16 21
Titanium stress-corrosion cracking at high temperatures (N)..... Jan. 27 17
Beattie-Coleman Inc.—Six-channel programmer (C) ..... Apr. 28 111
Beaver Precision Products, Inc.—Ball-bearing way cartridges ease traversing (SP) ..... Mar. 24 38
Behlen Mfg. Co.—Mechanical force adjusts or reverses hydraulic motor (C) ..... Mar. 3 89
Behr-Manning Co.—Tape dispenser (T) ..... Apr. 7 37
Bell Aircraft Corp.—How to plot and read a carpet curve. Alexander Krivetsky ..... Mar. 31 127
Bell & Howell Co.—Roberts, William E.—Point of View ..... Mar. 24 35
Bell Telephone Laboratories, Inc.
Better grounding for tubes (D)..Feb. 10 8
Delay line for trigger circuits (D) ..... Apr. 21 8
Handwritten numbers can be read automatically (D) ..... Jan. 20 18
Leamer, F. D.—Point of View..Feb. 24 39
New semiconductor device (D) ..... Apr. 28 34
Nonferrous magnetic materials (N) ..... June 30 10
See-hear phone system gets push (N) ..... Feb. 3 21
Bendix Aviation Corp.—Tailor 'flexible automation' to industry needs (N) ..... Jan. 13 20
Bertino & Co.—Machine produces links for bracelets or chains (N)..June 2 17
Besley-Welles Corp.—Roll-forming process for better tapped holes (D) ..... Mar. 31 38
Bethlehem Steel Co.—Vacuum steel grows up. J. H. Stoll..... May 26 70
Bex Industries—"Permanent"germicides (D) ..... May 5 5
Beynes (Holland)—Sectional streetcar (T) ..... Mar. 24 37
Bituminous Coal Research, Inc.
Coal research center to be built in Pittsburgh (N) ..... Apr. 7 12
Improved thermal controls sought (D) ..... May 26 19
Blitzer Kuehlmaschinenbau GmbH—Gas engine refrigerator (D) ..... Apr. 7 10
Bjorksten Research Laboratories—Metal-coated silica fibers (D)..... June 9 20
Bloomingdale Rubber Co.—Don't overlook the construction field (D)..... Feb. 10 8
Boart and Hard Metal Products, S.A.—Grinding of drill bits to be mostly electrolytic (N) ..... June 2 18
Boehler & Co., A. G.—Weld-filled bolts (D) ..... Mar. 17 18
Boeing Airplane Co.
Aircraft firms try new design teams (N) ..... May 26 21
Engineers protest decreased increases (N) ..... Jan. 6 38
Linkage measures bending stress (PD) ..... June 9 65
Weltronic tungsten inert-gas fusion-welder (N) ..... June 23 25
Bohner and Aohle (Germany)—5 hydraulic circuits for 3-job machine (PD) ..... June 23 76
Borletti Co.—Sewing machine (PD) ..... May 12 82
Bosch, Robert GmbH—Portable combustion-tester for deisel engines (D) ..... June 16 8
Boston Gear Works—Miniature speed reducers for light duty (C)....Jan. 6 93
Boston University—Professor suggests farming out' of engineers to minor league firms (N) ..... Apr. 28 38
Bristol Co.—10 ways to use metal diaphragms and capsules. D. C. Whitten (DR) ..... Feb. 17 82
British Iron and Steel Research Assn.—"Optical calliper" for hot rod and strip (D) ..... Jan. 13 8
British Motor Co.—Flywheels, spark plugs (N) ..... Apr. 7 27
British Overseas Aircraft Corp.—Thrust platforms measure up (N)....Jan. 6 37
British Railways—Diesel-hydraulic locomotive (T) ..... June 30 23
Brookdale Engineering & Services Co.—Exposed contact switches are explosion proof (SP) ..... Mar. 24 39
Brown & Bigelow—Desk fan (T) ..... June 16 34
Brown & Sharpe Mfg. Co.—Sizer, H. E.—Point of View ..... Feb. 10 41
Bryant Chucking Grinder Co.—Grinder supports reduce vibration (PD) ..... Mar. 17 85
Budd Co.—Plastics form sleeper compartments (PD) ..... Mar. 31 115
Buehrle & Co., Oerlikon Machine Tool Works—Spiral bevel-gear generator (T) ..... May 5 38
Burgess Battery Co.—Dry cells for quiet, dependable, packaged power. J. J. Coleman ..... Feb. 17 72
Burrard Dry Dock Co.—Hydraulic shear (N) ..... June 23 23
Burroughs Corp.—Contract award for ground guidance system for Atlas (N) ..... Feb. 17 23
BX Plastics, Ltd.—Steel-reinforced plastics (D) ..... Jan. 6 33
Byron Business Machines, Ltd.—Typewriter (T) ..... June 30 22

Canadian Marconi Company—Photocells for printed-tape reading (D)..Feb. 3 18
Carolina Industrial Plastics, Essex Wire Corp.—Extruded vinyl foam (SP) .....June 16 39
Carpenter Steel Co.—Faster corrosion test cuts designing cost of heat exchangers (N).....June 16 26
Carrozzeria Ghia, S. A.—"Jolly" (T) .....Apr. 7 37
Case Institute of Technology—Gray iron castings. J. F. Wallace....Jan. 20 52
Case, J. L. Co.—Torque converter gives tractor two drives in one (PD) .....Jan. 20 65
Catholic University of America—Latin squares for fewer tests—same accuracy. D. N. Chorafas....May 12 92
A/S Cathrineholm—Transparent enamels for stainless steel (D).....Mar. 10 12
Chance-Vought Aircraft, Inc.
Fluoroscopes are better than X-ray film for detecting casting flaws (D) .....Feb. 3 17
High-strength castings (D)....Jan. 20 17
Chapman, Dave, Inc.
Paint sprayer (T).....Mar. 10 39
Why people do what they do. A. R. Morrow .....Mar. 31 89
Charmotte-Industrie Hagenburger-Schwalb A.G.—Vanal linings (D) .....Apr. 7 10
Chemische Werke Huls—Automatic processing keynotes new plant (D) .....May 19 8
Chicago Bridge & Iron Co.—Channeled-and-clad plate (SP).....Mar. 10 48
Chicago Molded Plastics Corp.—Stage competition for design of plastic products (N).....May 26 25
Chicago Rubber Co., Inc.—Roll coverings replaced or repaired by segments (SP) .....Mar. 24 39
Chromalloy Corp.—Molybdenum gets 2300-F coating (N).....Jan. 13 21
Churchill, V. L. & Co.—Brake tester (D) .....May 5 10
Cimco Engineering Co.—Armatures—automatic assembly (PD)....Apr. 28 90
Cincinnati Milling Machine Co.
Dall, A. A.—Point of View....Apr. 7 35
Milling machine (T).....Apr. 7 36
Circon Component Corp.—Subminiature neon lamp with current control (SP) .....June 2 33
City College of New York—31 ways to make a cam. H. A. Rothbart .....Mar. 3 67
Clary Corp.
Clary, Hugh L.—Point of View .....Mar. 24 34
Compact computing in standard desk (N) .....Jan. 27 24
Clemson Bros., Inc.—Castings cut mower costs (PD).....Apr. 28 89
Coil Winding Equipment Co.—Gears compute coil-winding data (PD)..Apr. 14 68
Coldmaker Corp.—Gasoline is coolant in auto refrigerator (D).....Apr. 21 7
Columbia Broadcasting System, Inc. CBS-Hytron—Ultrahigh-resolution cathode-ray tube (D).....May 12 20
Columbia-Southern Chemical Corp.—Zirconium components in automatic control valves (N).....May 19 12
Columbia University—Dunning, Dr. J. R. —Point of View.....June 30 25
Commonwealth Scientific Industrial Research Organization—Polishing need not deform metal surfaces (N) .....Apr. 7 13
Commonwealth Scientific and Industrial Research Organization, Div. of Electrotechnology—Wool wax cuts dielectric losses (D).....Mar. 24 12
Computer-Measurements Corp.—Digital counter has straight-line readout (C) .....Feb. 3 85
Conair Inc.—Varying orifice contour (SP) .....Jan. 13 41
Consolidated Electrodynamics Corp.—Lancor, J. H.—Point of View .....Apr. 7 34
Cornell Aeronautical Laboratory—Changeable jet unique flight-testing tool (N).....Feb. 24 26
Corning Glass Works
Ceramics from glass go commercial. Dr. J. H. Munier.....Mar. 17 87
New sealing process for glass (D) .....Apr. 7 5
Seek hi-temperature aircraft windshields (N).....June 16 24
Corning Glass Works Pyroceram Products—Crawford, Clark—Point of View .....Mar. 24 34
Corrosion Ltd.—New adhesive, Polybond (D) .....Mar. 31 36
Counting Instruments, Ltd.—Photoelectric counter (C).....Apr. 14 89
Craig Systems, Inc.—Helicop-Huts (N) .....Feb. 3 22
Cubic Corp.—Individual voltage regulators (SP).....Apr. 21 40
Daco Instrument Co.—Dynamic gear tester. Jack Beiger.....Jan. 20 69
Daniel Mann Johnson and Mendenhall—Monorail: safety, speed and silence .....Apr. 7 19
Davies Bros.—Intensifier converts air to hydraulic pressure at ratios to 225:1 (C) .....June 23 101
de Florez Co.—System concentrates light (SP) .....Feb. 10 43
Demag AG (Germany)—Fast-cast steel plant (N).....Apr. 7 21
Design Tool Co., Electro-Machinery Div.—Tape programs assembly (PD) .....Mar. 3 66
Detroit Harvester Corp.—Castings cut mower costs (PD).....Apr. 28 89
De Yecht—Coffee grinder (T)....Mar. 24 36
Dialight Corp.—Pilot lights with built-in resistors (SP).....May 19 39
Diamonite Products Mfg. Co.—Ceramics that bounce. R. H. Rudolph..Feb. 3 76
Dico Co.—Surge mechanism stops towed vehicles (SP).....Mar. 10 48
Dictaphone Corp.—Dictating machine (T) .....Apr. 21 38
Digitac, Inc.—One or two-way counters add, substract (SP).....Feb. 24 41
Digitran Co.—Counter with electrical and visual readout (SP).....Feb. 24 41
Digitronics Corp.—Spring clutches for faster response. E. V. Leonard .....Apr. 14 57
Disogrin Industries, Inc.—Plastics for abrasion resistance. Jean Pierre Abbat .....Mar. 31 105
Ditta Capra Giglio (Italy)—Toothed tires for snow and soft ground (D) .....Jan. 13 8
Double-A Products Co.—Maintenance advice for fluid circuits. John Pippenger .....Mar. 17 71
Dow Chemical Company
Pellet extrusions beef up magnesium structures. C. S. Foerster..May 12
Stronger magnesium extrusions coming (N).....Mar. 24 80 29
Dow-Corning Corp.—Air-curing, flexible silicone foam (D).....Mar. 3 18
DRU (Holland)—Oil heater (T)..Mar. 24 36
Du Pont E.I., De Nemours & Co.
Bonded fibers find product jobs (N) .....Feb. 10 16
Dielectric gas that can take 30% to 50% higher voltages (D)....May 12 20
Foams expand into autos (N)..June 2 11
High-temperature fluorocarbon rubber (C) .....Apr. 14 89
New strong, weather-resistant plastics (N) .....June 16 11
Red pigments make debut with new tech lab (N).....June 9 25
Rubbers that can take 600 F (D) .....Mar. 24 7
Dynamic Development Co.—Temperature bridge (SP).....Feb. 10 43
Duramic Products, Inc.
Ceramic withstands heat shock (SP) .....June 30 27
Miniature ceramic parts (SP)..Apr. 7 41
Eastman Chemical Products, Inc.—Weather-resistant polyethylene (SP) .....Feb. 10 43
Eastman Kodak Co.—New light on color specification (D).....Feb. 17 17
Eaton Mfg. Co., Reliance Div.—Hex nut and spring washer (SP)....May 19 39
Egmont Arens—Hook-and-eye construction fastener (T).....June 16 35
Ekstrom, Carlson and Co.—New dc motors. T. C. Mann.....Mar. 31 108
Electra Motors, Inc.—Motors without cooling fins (SP).....June 16 39
Electrofilm, Inc.—Self-mending heating element (SP).....May 5 42
Electronic Associates, Inc.—Electric plotting board case (T).....Mar. 10 39
Electronic Engineering Co. of Calif.—Preset batch counting (C)..Apr. 28 111
Electronic Processes Corp. of Calif.—Proportioning heat control (SP) .....May 19 39
Electro-Optical Systems, Inc.—Chemical camera shutter (D).....Jan. 13 (N) Feb. 10 5 14
Elliott Co.—Low-cost sound lab (PD) .....Apr. 28 91
Emerson & Cuming, Inc.—Electrical conductivity of epoxy adhesives (SP) .....Mar. 10 49
High-temp dielectric material (SP) .....May 5 43
Emhart Mfg. Co.—Scale computes weight correction (PD).....Mar. 17 82
Emhart Mfg. Co., V&O Press Div.—Redesigned press molds plastic (PD) .....May 12 82
Energy Kontrols—Switch with contacts in arc-quenching gas (SP)..Mar. 24 39
Engineers and Scientists of America—Amann, Joseph—Point of View .....Apr. 21 37
Englehard, Charles, Inc.—Safety when a turbine fails (PD).....Mar. 31 111
Englehard Industries, Amersil Div.—Fused quarts can be forged to shape (D) .....Mar. 31 35
Ericsson Co.—Pay telephone (T)..Feb. 24 34
Essex Wire Corp., Cords Ltd. Div.—Coiled heater cord (SP)....June 2 32
Esso Standard Oil Co.—Cleaner fuels arrive (N).....May 26 26
Ethyl Corp.
Manganese antiknock compound (D) .....May 26 20
Octane ratings will go up, but more slowly (D).....May 19 5
Fabristeel Products, Inc.—Nut that punches its own hole (SP)..Mar. 24 38
Facile Corp., Industrial Div.—Glass fiber tapes for electrical insulation (D) .....June 30 5
Fafnir Bearing Co.—Rubber cushions when bearings must be quiet. R. E. Downes .....Apr. 28 96
Fairbanks, Morse Co.—How to figure starting current from NEMA code letters (RS) C. C. Libby..Apr. 28 107
Fairey Aviation Co.
Claims lead in VTO aircraft (N) .....May 5 30
Ohmmeter (T).....June 30 23
Fansteel Metallurgical Co.
Heavy-metal alloy (D).....Apr. 21 8
Tantalum as a heavyweight contender (D) .....May 5 6
Farrell-Birmingham Co., Consolidated Machine, Tool Div.—Milling machine takes double scalp (PD)....Apr. 28 88
Fenn College—Nylon-clad sleeve bearings. Penney & Bockhoff.....Mar. 3 52
Ferguson Machine Corp. of Indiana—Clutch-brake motors (C)....June 23 101
Fiat Motor Co.—Compressed air turns copter rotor (N).....Jan. 6 38
Firma Knorr-Bremse GmbH—Controlled deceleration for trains (PD)..Jan. 6 74
Flexopress Corp.—Magnetic-force method welds vinyl-laminated steel sheet (N) .....June 30 19
Flight Refueling, Inc.—Nomograph gives torque. S. Warren Kaye (RS) .....June 9 83
Foote Mineral Co.—High-purity silicon achieved by new method (D)..May 5 6
Ford Instrument Co.
Davis, D. J. spotlights a major trend in metalworking (D).....Mar. 31 36
Gyro test table "stops" earth in inertial space (PD) .....Jan. 20 64
Shrink-fit nomograph. Sigmund Rappaport (RS) .....Apr. 14 85
6 spring-loaded chucks (and) fixture holding fixtures. Sigmund Rappaport (DR) .....Jan. 20 89
Surveillance drone (N).....Feb. 17 22
Ford Motor Co.
Eggert, Robert J.—Point of View .....June 2 31
Flying car (N) .....Apr. 21 23
Turbine wheel cost cut from $4000 to $100 .....May 5 29
Formica Corp.—Post-formed phenolic laminates. Harry Storch .....Feb. 17 66
Frankford Arsenal—White oil byproducts are highly effective rust inhibitors (D) .....May 12 19
Freuhauf Trailer Co.—Williams, A. E.—Point of View .....Feb. 10 41
Gabriel Co.—Rheostats regulate shock absorbers (PD) .....Mar. 31 114
Gap Instrument Corp.—Instrument construction system (SP) .....Feb. 10 43
Garrett Corp. AiResearch Manufacturing Div.—Actuator adjusts cooling system (PD) .....Mar. 31 112
Gaynor & Ducas, Inc.—An engineer's profile .....June 16 33
General Dynamics Corp. Convair Div.
Atlas could power 4-man space station 400 mi. away by 1963 (N)....May 19 21
Cooling test-chamber (D) .....Jan. 13 6
"Impossible" welds in thin-gage stainless (D) .....Apr. 21 7
One way to measure temperature of hydraulic lines. J. H. Famme...Mar. 3 58
Redesign to bypass metal fatigue (D) .....Mar. 17 18
Shriek-proof design (D) .....Jan. 27 7
General Dynamics, Electric Boat Div.—Simulator trainer for submariners (N) .....Jan. 6 39
General Electric Co.
Fused quartz (N) .....May 5 16
Improved ceramic electron tubes (D) .....Apr. 7 6
Improved motor insulation (D)..Mar. 10 7
Mechanized print-handling system (N) .....Mar. 10 24
Metropolitan transportation will be the next multibillion-dollar market (D) .....Mar. 17 18
9 ways to make instruments readable. R. M. Rowell .....Feb. 3 61
Pinch & roll process cuts compressor blade cost (N)....June 2 25, June 9 23
Savage, C. F.—Point of View...Mar. 10 42
See-hear phone system gets push (N) .....Feb. 3 21

Silicon-controlled rectifier, new dc power supply (D) ..... May 12 20
Silicon-controlled rectifiers (D) ..... Feb. 3 17
Small induction motors are going places. R. W. Groot ..... Mar. 3 72
Tape controls multifunction drill (PD) ..... Mar. 17 86
Timing clutch (T) ..... Apr. 7 40
12 ways to load test gears. Gene Shipley ..... Jan. 6 77

General Electric Co. Appliance Park—Porcelain coatings on steel. Fussell & Tripp ..... Feb. 17 75

General Electric Co. Industry Control Dept.—Electrical control enclosures. F. L. Teuscher ..... June 23 78

General Electric Metallurgical Products Dept.—Cemented oxide points to revolution in machine tool design (N) ..... Apr. 28 36

General Electric's Missile and Ordnance Systems Dept.—Plastics for ultrahigh temperatures (D) ..... June 16 5

General Electric Co. Semiconductor Products Div.—Semiconductor rectifiers. R. A. York ..... May 12 89

General Electric Co. Silicone Products Dept.—Molded silicone rubber parts. D. F. Spalding ..... Apr. 14 69

General Electric Co. Small A-C Motor and Generator Department
Automating a large, low-volume product. Fred Baumann ..... June 23 88
NEMA standards for those size-reduced motors with the same power. R. Y. Newton ..... Feb. 3 54

General Electric Ltd.—Kitchen range (T) ..... June 30 22

General Motors Corp.
Aluminum V-8 automotive engine (N) ..... June 16 25
Automated line speeds motor manufacture (N) ..... Jan. 27 24
Diesels designed for rebirth (PD) ..... Feb. 17 78
Setting up test equipment to compare auto stability (N) ..... Feb. 17 23

General Motors Corp. AC Spark Plug Div.
Automatic manufacture for high production. C. L. Johnson ..... June 23
How you can buy TIME. Roy McCullough ..... Apr. 7 32

General Motors Corp. Frigidaire Div.—Frost-free refrigerator (D) ..... June 2 5
Martin, John C.—Point of View. June 2 31

General Motors Corp. New Departure Div.
Instrument bearings for 300F and up. N. A. Sinclair ..... Feb. 3 72
New gothic-arch bearings uses (N) ..... Apr. 7 30

General Plywood Corp.—Friction heat put to work in wood finishing (D) ..... Apr. 21 8

Gerbing Mfg. Corp.—Remotely adjustable motor base controls speed (C) ..... Jan. 6 93

Giannini, G. M. & Co.—Controlled thrust rotation (SP) ..... June 30 26

Giannini Research Laboratory—Ion propulsion (N) ..... Feb. 24 14

Gisholt Machine Co.—Cam varies spindle speed (PD) ..... Jan. 20 66

Glengarry Processes Inc.—Measurement-by-weight (SP) ..... Jan. 13 41

Goodrich, B. F.—Liquid brake (D) ..... Mar. 10 8, Mar. 24 8

Goodrich-Gulf Chemicals, Inc.—"Heavy" rubber from deuterium (D) ..... June 16 5

Goodyear Tire & Rubber Co.
Appliance hose that won't shrink under pressure (D) ..... Apr. 14 20
Inflate tires with nitrogen to protect them from radiation damage (D) ..... June 30 5
New laminating film (N) ..... Mar. 10 16

Grace, W. R. & Co.
More engineered parts of rigid, linear polyethylene (D) ..... Feb. 10 8
Valve gate molding cuts parts cost (N) ..... Feb. 24 17

Grand Central Rocket Company—Third-stage rocket for Vanguard (D) ..... Apr. 7 9

Grief-Werk GmbH — Adjustable work height feature of new grinder (D) ..... June 30 8

Grumman Aircraft Engineering Corp.—High-integrity aluminum castings A. R. Mead ..... Feb. 17 69

Gulf Oil Corp.—Materials that help reduce corrosion in gas-turbine engines (D) ..... Mar. 24 7

Gulton Industries, Inc.—LPG soldering torch (D) ..... Apr. 14 19

Hagen Mfg. Co.—Timers, relays and motors (C) ..... Mar. 31 131

Hall-Toledo, Inc.—Grinder cycles automatically (PD) ..... Jan. 20 67

Hamlin Inc.—Glass-encased relay (SP) ..... Jan. 13 41

Hannover Institute of Technology—Pointers for belt design (D) ..... Apr. 7 10

Harman Equipment Co.—Check valve with inflatable rubber element (SP) ..... Apr. 7 41

Hartsall Co.—Rotating scanning plate (SP) ..... Feb. 24 40

Hasselblad (Sweden) — Camera (T) ..... Feb. 24 34

Haveg Industries, Inc.—Resin service temperatures now up to 2500 F (N) ..... May 5 16

Hawaiian Electric Co.—Atom power buildup (N) ..... Jan. 6 39

Helipot Corp.—Liquid-filled potentiometer (SP) ..... Apr. 7 41

Hercules Powder Co. Allegany Ballistic Lab.—Third-stage rocket for Vanguard (D) ..... Apr. 7 9

Heribertson, P. E.—Streetlight (T) ..... Feb. 24 36

High Voltage Engineering Corp.—X-ray inspection for solid fuel (N) ..... Mar. 10 25

Hill, Walter P., Inc.—Drills obey escapement (PD) ..... May 12 84

Hirose Paper Mill—Nylon and vinyl-fiber paper (D) ..... Feb. 24 12

Hobbs Transmission Ltd.—Fully automatic transmission (N) ..... May 26 22

Hofmann, Alfred & Co.—Styrofoam astrodomes (N) ..... June 23 21

Holman Bros. Ltd.—Midget pump with a capacity of 31 gpm (D) ..... Apr. 7 10

Hoover Transmission Co., Inc.—V-belt pulley with automatic torque conversion (SP) ..... Apr. 21 40

Hudson, Robert & Sons Ltd.—Rubber disks replace coil springs (D) ..... June 2 7

Hughes Aircraft Co. — Tape-controlled production line (N) ..... Mar. 24 28

Hundested Bruk A. S.—All-nylon propellers (D) ..... Apr. 14 19

Hunting Percival Aircraft, Ltd.—Folding jeep carries four (PD) ..... Apr. 14 64

Hupp Corp. Huppower Div.—Welded stampings form mounting plates (PD) ..... May 26 68

Hurlburt Paper Co.—High-strength paper that conducts electricity (D) ..... Feb. 17 17

Hydra-Power Corp. — Compensates for wear (SP) ..... May 5 43

Hyster Co.—Seats for mobile equipment designed for minimum fatigue (T) ..... Jan. 13 36

Ideal Electric & Mfg. Co.—Trend to 400-cycle equipment (D) ..... Feb. 3 18

Illinois Institute of Technology—Boyce, J. C.—Point of View ..... Jan. 13 33

Imperial Chemical Industries, Ltd.—High-temperature titanium alloy (D) ..... Feb. 24 12
Nylon zipper (D) ..... June 16 8

Indola of Rijswijk (Holland)—Airroulette fan (N) ..... June 2 17

Institute of Artificial Fibers and Synthetic Materials—"Artificial wool" called Elena (D) ..... Jan. 13 8

Institute of Environmental Engineers—A good name, "environmental engineering" (D) ..... May 26

Institute of Paper Chemistry—Paper from fungi (D) ..... Mar. 3

International Business Machines Corp.—Machines do speedy abstracts (N) ..... Apr. 7 28
Pattison, R. E.—Point of View. Mar. 10 42

Ionics, Inc.—Electric water desalting plant to serve Coalinga, Calif. (N) ..... June 16 20

Iowa State College—Rare-metal separation processes (N) ..... Mar. 10

Isotope Developments, Ltd.—Instruments for systems using radioactive isotopes (D) ..... Mar. 17 16

Ivel Construction Corp.—Satellite mass-producer (N) ..... June 2 23

Johns-Manville Corp.—Inorganic insulating material compares with still air (SP) ..... Mar. 10 49

Johnson & Johnson, Ethicon Div.—Radiation processing of industrial materials (D) ..... Feb. 10 8

Kahn & Co., Inc.—Precision flow-measurement (C) ..... June 23 101

Kaman Aircraft Corp.—Chart eases moment-of-inertia calculations. W. G. Flannelly (RS) ..... Feb. 17 95

Kearney & Trecker Corp.—Tape-controlled production line (N) ..... Mar. 24 28

Keuffel & Esser Co.—Distortion-free enlargements (D) ..... Mar. 10 8

Kidde, Walter & Co., Inc.—How to calculate stress in short cylindrical shells. Lawrence Berko (RS) ..... Feb. 3

Kurashiki Mining Co.—Improved shielding material for atomic radiation (N) ..... Jan. 27 14

Kyoto U.—Rayon from bamboo (D) ..... Mar. 24 12

Latrobe Steel Co.—This mill rolls superalloys (PD) ..... Feb. 3 65

Lead Industries Association
Lead ferroelectrics, and porcelain enamels (D) ..... Apr. 14 19
To spend more for research (N) ..... May 5 30

LeBlond, R. K. Machine Tool Co.
Coolant is key to rapid boring (PD) ..... May 26 69
Lathe cuts spirals (PD) ..... Mar. 3 62

Lectrotech Co.—Automation for electrolytic stencil (N) ..... May 19 24

Lectronics, Inc.—Solenoid with adjustable control (SP) ..... Apr. 7 41

Le Tourneau, R. G., Inc.
Fork-lift truck for handling redwood logs (PD) ..... Mar. 3 65
Mass-produced electric wheel for giant jobs ..... June 30 16

Leland, G. H., Inc.—Hot solenoid. Olin K. Smith ..... Jan. 6 61

Lester-Phoenix, Inc.—Test ring rates casting machine (PD) ..... Mar. 3 64

Linde Co.—New route to better plastics, rubber (N) ..... June 2 11

Lindly Co.—Transistor-equipped infrared detector (SP) ..... Feb. 24 41

Lindsay Chemical Co.—Samarium is looking for jobs (D) ..... Jan. 27 7

Linker Machines, Inc.—Peeling machine for wieners (PD) ..... June 9 64

Lithibar Co. Savage Engineering Div.—Mechanical indexing table (SP) ..... June 16 39

Little, Arthur D. Inc.
Foamed adhesives that can cut costs (D) ..... Mar. 10 7
Lone invention—no lost art. J. W. Lincoln ..... June 2 26
Which adhesive for what. James & Gormly ..... Mar. 17 79

LKAB (Sweden)—Electrically powered compressor (T) ..... Feb. 24 35

Lockheed Aircraft Corp.
Expands into nuclear heating (N) ..... May 19 25
Machines to cut 200 times faster (N) ..... Mar. 31 39

Lodge & Shipley Co.—Explorer nose cone tested (N) ..... Mar. 17 21

Loewy, Raymond Associates—Temperature indicator (T) ..... Feb. 10 39

Lotus Engineering Co.—Sports and competition cars (T) ..... Jan. 27 43

Lukens Steel Co.—Hard-clad rolled steel (D) ..... Apr. 7 6

LUWAAG (Switzerland)—Space heater (T) ..... May 5 38

Magnetic Research Corp.—Woardmann, Dr. Hugo H.—Point of View. Feb. 24 38

Mallory, P. R. Co.—Another miniature battery (D) ..... Apr. 21 8

Mankewitz and Strasser, Ltd.—10 ways to employ screw mechanisms. Felix Strasser (DR) ..... May 26 80

Marconi's Wireless Telegraph Co.—Electronic code checking system reduces teleprinter errors (N) ..... May 19 26

Martin Company—Thermal radiation from hot surfaces. C. V. Thompson. Mar. 31 116

Maschinenfabrik Heid AG—Lathe—Center height is adjustable (PD) ..... Feb. 17 82

Massachusetts Institute of Technology—Center for Communication Sciences will probe question, can we make our machines better? (N) ..... June 2 23
"Electronic heat engine" to convert heat into electricity (D) ..... Apr. 28 33
Linear programming can be easy math. G. F. Hadley ..... Mar. 3 55
Predict wear of metal parts. Ernst Rabinowicz ..... June 23 71
Shapiro, Eli—Point of View. Mar. 10 42

Massachusetts Institute of Technology Center for International Studies—The engineer and the social scientist—towards a meeting of minds. H. V. Perlmutter ..... Mar. 31 93

Mavitta Drafting Machines, Ltd.—3-D drawing board (D) ..... Apr. 21 14

McGraw-Edison Co. Bussman Mfg. Div.—Fuses do this. J. C. Lebens. Jan. 6 64

Mebro Ltd.—Skew rollers feed debarker (PD) ..... Jan. 20 68

Mesa Plastics Co.—High-temperature compound (SP) ..... Mar. 24 39

Metachemical Processes, Ltd.—Nickel electroforms (N) ..... Mar. 24 24

Metal Atomizing and Processing Corp.—Unusual metal powders (D) ..... June 30 8

Metals & Controls Corp. General Plate Div.—Thermostat material with built-in contact stripe (D) ..... May 5 5

Metron Instrument Co.—Universal coupling (SP) ..... Jan. 27 45

Metz, Carl (Germany)—Aerial stairway for fire-fighting (N) ..... Mar. 24 24

Michigan Chemical Corp.—Flameproofing compounds (D) ..... Apr. 14 19

Michigan Tool Co. Cone Drive Gears Div.—Double-enveloping worm gearset for radio telescope (N) ..... June 9 24

Military Aircraft Factory—Equations predict chance of misfit in assembly. W. Hanka ..... May 26 61

Miniature Electronic Components Corp.—Microminiature potentiometers (SP) ..... Mar. 10 49

Miniature Precision Bearings, Inc.—How to lubricate instrument ball bearings. R. F. Irwin ..... June 9 66

Minneapolis-Honeywell Regulator Co.
Contact ratio for involute gears. E. A. Niemann ..... June 9 81
Fully sealed switches for 1000F and above (D) ..... Apr. 14 20
Lost in a maze of materials?—materials department will tell you which metal or plastic to use. N. J. Petrella ..... June 30 20

Minneapolis-Honeywell Regulator Co. Brown Instruments Div.—Flowmeter unaffected by temperature (PD) ..... May 12 85

Minnesota Mining & Mfg. Co.
Firet, Dr. Edgar L.—Point of View. Feb. 24 38
Weight savings up to 75% with new perfluorinated compounds (D) ..... Jan. 20 17

Minnesota Mining and Manufacturing Co. Adhesives, Coatings & Sealers Div.
Composite film adhesives (SP) ..... Jan. 27 45
Sandwich-panels. R. K. Humke
Core materials ..... Jan. 20 70
Facing materials ..... Apr. 28 80
Adhesives ..... May 26 56

(A) Abstract (C) New Components. (D) Developments. (DS) Design Roundup. (Ed) Editorials.

Monarch Machine Tool Co.—Sandwich manifolding. A. A. Dicke...Feb. 17 88
Montgomery Ward & Co.—Garden equipment—designing for a family look (T).....June 2 20
Morey Machinery Co.—Milling machine for small-lot production (N)..Mar. 10 26
Motor Industry's Research Association—Vane pumps do auto transmission job (PD).....June 23 74
Motorola, Inc.—Flood warning system readied (N).....Apr. 21 25
Mt. Hope Machinery Co.—Transparent plastic for machine parts (N).Feb. 10 16
Muller-Munk, Peter Associates—Offset press (T).....June 16 34
Murex, Ltd.—Molybdenum and tungsten furnaces (D).....Jan. 27 12
Nanno Th. Collman & Co.—Pushbutton maintenance — tire-changing device (D).....Apr. 21 14
Nash, Jim Associates, Inc.—Tape dispenser (T).....Apr. 7 37
National Automatic Tool Co., Inc.—When to use pressure switches to indicate completed movement. E. E. Opel.....May 26 64
National Broach & Machine Co.—Honing machine—work tilts against tool (PD).....Apr. 14 65
National Bureau of Standards—Energy-absorbing plastics (D)..Mar. 3 17
How many new fuels? (N)....Feb. 24 14
Metal fatigue proclaiming its presence by producing thousands of tiny bubbles (D).....Jan. 20 17
National Education Assoc. of the United States—Ginger, Dr. L. V.—Point of View.....June 30 25
National Fluid Power Association—Analyzes fluid trend (N).....June 23 25
National Metallurgical Laboratory—Nickel-free stainless steels (D)...Mar. 24 12
National Polymer Products, Inc.—Cellulose-base finishes (C).....Mar. 31 131
National Science Foundation
How to keep track of technical information (D).....Feb. 24 11
Requests for NSF aid up since Sputnik (N).....Feb. 17 22
Will sponsor meeting of top researchers and economists, May 20 (D)..Mar. 24 11
National Vulcanized Fibre Co.—Flame-retardant XXXP laminates (D).....May 26 19
Naval Gun Factory—There are no "nonsparking" metals (D).....Jan. 20 18
Naval Ordnance Laboratory
Design standards for timing mechanisms (D).....Feb. 10 18
Hartmann, Dr. Gregory K.—Point of View.....Feb. 24 39
Naval Ordnance Test Center
Desert scientists.....Jan. 27 23
Kern County, Calif. protests NOTS (N).....Feb. 17 20
Naval Research Laboratory
Cold-cured ceramics (N).....June 30 11
Plastic coatings need not pose explosion hazards (D).....June 23 20
Rocket-powered fire extinguishers (D).....Jan. 13 5
Snapping pictures in microseconds (N).....Jan. 27 14
Navan Products, Inc.—Smaller, closer-tolerance ground slots with new diamond grinding wheels (D)..June 9 19
Necchi-Elna (Italy)
Home sewing machine (T)....Mar. 10 38
Industrial sewing machine (T)..Jan. 27 42
N. V. Nederlandshe Machinefabrik—Lathes (T).....Mar. 24 36
Nesbam, L. C. Co.—Free poppet valve multiplies air pressure (SP)..Mar. 24 39
New Electronic Products—Recording galvanometer (D).....Feb. 24 12
New York University College of Engineering
Polarizing technique developed (N).....Apr. 28 38
Thermoelectric power from intermetallics (N).....June 30 10
Newark College of Engineering—Input-output analysis of mechanisms. J. O. Predale.....Mar. 17 90
Nilson, A. H. Machine Co.—Bed of forming machine (T).....Apr. 7 36
North American Aviation, Inc.
Designing man into the "drivers seat" in future aircraft (D)....Jan. 27 8
Metallic seal for use to 750F (D).....June 30 5
Multi-rate helical springs. K. A. Flesher.....Jan. 20 76
WS-110-A chemical bomber will use stainless steel (D).....Jan. 27 11
North American Aviation's Missile Development Div.—Internal combustion has space potential, Dr. D. Mackay says (N).....May 19 26
Northrop Aircraft, Inc.
A-powered, winged missile top war deterrent? (N).....Apr. 21 29
Aircraft firms try new design teams (N).....May 26 21
Ideas for vehicle to hurdle space (N).....May 19 21
NRC Equipment Corp.—Lab-sized furnace for home-grown crystals (N).May 19 10
Nutone, Inc.—Built-in scale (D)..June 16 5
Odessa Electrotechnical Communications Institute—Phototelegraph (N).....June 16 19
Ohio Rubber Company
High-speed molding process cuts cost of rubber parts. R. L. Halstead.....June 23 68
Rubber parts molding automated (N).....June 9 21
Ohio State Research Foundation
Strong, dense cermets (N)....June 2 22
Woolpert, Oram C., M.D.—Point of View.....Jan. 13 33
Oilaud N. V. (Holland)—Weighing machine (T).....Mar. 24 36
Olin-Mathieson Chemical Corp.—Variable-section cantilever beams. Dr. K. Maier.....Feb. 17 85
Orban, Kurt Co., Inc.—5 hydraulic circuits for 3-job machine (PD).June 23 76
Owens-Corning Fiberglas Corp.
Fiber-reinforced plastics—five year program—report. F. R. Park...Feb. 3 69
Glassed plastics (N).....Apr. 7 13
Pacific Gas & Electric Co.—A-plant will compete with conventional fuels (N).....Mar. 4 29
Pacific Semiconductors, Inc.—Pinhead-sized semiconductor diodes (D).....Apr. 28 33
Parametrics—Coupling links shafts, motors (SP).....Jan. 13 40
Parker Aircraft Company—Updating the K-factor formula for pressure drops in air valves. Dahle & Miller..Apr. 14 74
Parker Sweeper Co.—We threw out press fits for bearings. E. F. Oblinger.....Jan. 6 67
Perkin-Elmer Corp.—Infrared pinpoints pinhole leaks (N).....Feb. 24 23
Perkins, F. Ltd.—Dome-shape combustion chamber is key feature of new British engine (D).....June 23 19
Permaluster, Inc.—Magnet wire for 1000 F and above (D).....Mar. 31 35
Permanent Filter Corp.—Engine filtration unit (D).....June 23 20
Philco Corp.—Data processing system, completely transistorized (N) Apr. 21 23
Philco Corp.'s Government and Industrial Div.—Transistors give desk-size computer (PD).....June 23 75
Phillips Chemical Co.—Polyethylene: better and maybe cheaper (N)..Apr. 21 17
Phillips Petroleum Co.—Gear lubricant (D).....May 12 19
Phillips Telecommunication—Key telephones (N).....Apr. 7 33
Picatinny Arsenal—Treat polyethylene with chromic acid to improve bonding properties (D).....Jan. 6 33
Pinin Farina (Italy)—Car door slides back (PD).....Feb. 17 81
Plasteco, Inc.—Rods and tubes of rolled reinforced plastic (SP).....Feb. 24 41
Plastic Textile Accessories, Ltd.—Plastic mesh continuously produced (D).....May 12 19
Polaroid Corp.—Mixtures of red and white light can simulate the sensation of a range of colors (D).....Feb. 24 8
Polymer Corp.
Reinforced Teflon (C).....Mar. 31 132
Rotors without fishpaper slot insulation (D).....May 5 6
Polytechnic Institute of Brooklyn—Magnesium protected by alloying with other elements that migrate to the surface (D).....May 12 19
Polytechnic Research & Development Co.—Masers go to work in new signal-generator (D).....Mar. 24 7
Precision Welder—Magnetic-force method welds vinyl-laminated steel (N).....June 30 19
Precon Process and Equipment Corp.—For the technical—the Subliminal (N).....Feb. 3 19
President's Committee on Scientists and Engineers—Bevis, Dr. H. L.—Point of View.....June 30 25
Princeton University—Goheen, Dr. R.—Point of View.....June 30 24
Prodelin, Inc.—Semi-flexible transmission line.....May 5 43
Program Control Associates—Punched tape or card reader (SP).....June 2 32
Proler Steel Corp.—Automated steel scrap process still a secret (N)....June 16 22
Prometheus, AG (Switzerland)—Kitchen range control knows set on inclined-recessed panel (T).....May 5 39
Propulsion Research Corp.—Miniature gas turbine (SP).....May 19 39
Prorega, Ltd.—Process to reduce wear (D).....May 19 8
Prufex Elektro-Apparatebau GmbH—Automatic locking device for auto accelerator (D).....May 19 8
Pusey & Jones Corp.—Pneumatically operated web control (C).....Apr. 14 89
Pylon Co., Inc.—Metal fasteners have plastic heads (SP).....June 2 33
Radio Corp. of America
Dept. of Justice files criminal indictment (N).....Mar. 17 23
Driverless trips by automobile (D).....Jan. 27 11
RCA Victor Radio and "Victrola" Div.—Baggs, A. R.—Point of View..June 2 30
RCA Whirlpool—Vacuum cleaner (T).....Apr. 7 36
Rainbow Engineering Co.—Mechanization moves in to speed sorting the mails (N).....May 12 22
Ramset Fastening System—Powder-actuated fastening tool (N).....Feb. 10 23
Rand Development Corp.—Cooper-Rand Electronic Speech Aid (N)...Mar. 3 21
Rausch, Martin Landmaschinenfabrik—Fertilizer spreader features folding hood (PD).....Feb. 3 68
Reichhold Chemicals, Inc.—Friction heat put to work in wood finishing (D).....Apr. 21 8
Renlte Co.—Sprayer varies position, pattern, density (SP).....Mar. 24 38
Renupp Co.—Plastic transmission belts (SP).....May 5 43
Replex, Ltd.—Battery charger (D).....May 5 10
Resdel Corp.—Epoxy-resin tubing with rare-earth oxides (D).....Mar. 3 17
Research Institute of Electric and Magnetic Materials—New family of spring alloys (D).....Jan. 20 18
Rice Institute—Gray iron castings. Dr. F. R. Brotzen & others.....Jan. 20 52
Richardson Co.—Flame-retardant XXXP laminates (D).....May 26 19
Rome Air Development Center—Communicate by ultraviolet? (D).May 26 20
Ross Operating Valve Co.—Memory valve handles logic circuits. R. J. Cameron.....May 26 76
Russell, Burdsall & Ward Bolt and Nut Co.—Triple-seal fastener (C)....Mar. 31 131
Safe Lighting, Inc., Inertia Switch Div.—Acceleration or deceleration in switch (SP).....May 19 39
Sanborn Co.—Quick check for writing "instructions." H. E. French (RS).....Mar.3 85
Sandia Corp.—Clearance hole and drill size. C. I. Millard (DR).....May 12 99
Sanitized, Inc.—"Permanent" germicides (D).....May 5 5
"Saturday Review"—Cousins, Norman—Point of View.....June 30 24
Schladermundt, Peter Associates—Imprinting machine (T).....Apr. 21 39
Scientific Oil Compounding Co.
Built-in germ killer (D).....May 19 5
"Permanent" germicides (D)...May 5 5
Secon Metals Corp.—Magnet wire for 1000 F and above (D).....Mar. 31 35
Security Controls, Inc.—Unit detects minute changes (C).....Apr. 28 111
Seneca Falls Machine Co.—Speed, pressure, heat and flow control system (SP).....June 2 33
Servonics, Inc.
Digital voltmeter (SP).....Jan. 27 45
10 ways to mount servo components. F. W. Wood Jr. (DR).....Jan. 6 86
12 ways to retain electron tubes. F. W. Wood Jr. (DR).....Apr. 14 82
Seymour, S. R. & Co.—Bench-size model-making machine (D).....May 5 10
Shell Oil Co.
High-temperature grease (SP)..Jan. 13 41
High temperature lubricant and hydraulic oils under test (D)...May 5 5
Radiation-resistant grease developed (N).....Jan. 13 22
Siegener Eisenbahnbedarf AG—Automotive air springs (PD).....Apr. 28 87
Siemens Edison Swan Ltd.—Telephone (T).....June 30 22
Siemens & Halske (Germany)—Sounds out wire flaws (N).....June 16 18
Siemens-Schakert, A.G. (Germany)—German road light uses aluminum reflector (D).....May 24 12
Siemens-Schuckert-Werke (Germany)—Thermoelectric device for converting nuclear energy into electricity (N).....Apr. 21 16
Simplatrol Products Co. — Miniature clutches, brakes have no brushes (C).....Feb. 17 99
Sinus (Sweden)—Loudspeaker telephone Swedish design (T).....Feb. 24 34
A/S Skarpenord (Norway)—Aluminum for heat-exchange tubing (D)..Mar. 24 12
Societe Jules Richard (France)—Frost-warning device (D).....Mar. 10 12
Society of the Plastics Industry Vinyl Dispersions Div.—Triple-threat plastic coatings (N).....Jan. 13 11
Socony Mobil Oil Co., Inc.—Bottom-loading system for gasoline trucks (D).....Mar. 3 18
Sonotone Corp.—Miniature rechargeable batteries (D).....Mar. 31 36
South African Council for Scientific and Industrial Research—Solar heating for private homes being tested (N).....May 19 25
South African Council for Scientific and Industrial Research—Telecommunications Research Laboratory—Electronic yardstick for mileage (N).....May 19 24
Special Paper Manufacturing Co.—Nylon and vinyl-fiber paper (D)....Feb. 24 12
Sperry Gyroscope Co.
Major prime for future missile and weapon systems? (D).....May 19 7

Tri-Tonics Co.—Miniature reflection pickup (SP) .....June 16 39
Tru-Seale, Inc.—Special shape silicone rubber seals (N) .....May 26 21
Tucker Sno-Cat Corp.—Truck goes in any direction (PD) .....Jan. 6 72
Turissa Mahmaschinen — Portable sewing machine (D) .....May 12 82
Tuttle, H. W. and Co.—Increase heating element efficiency (N) .....Jan. 6 37
Tycho Mfg. Co.—Roller-way bearing cuts stick, slip (SP) .....Mar. 24 38
Ultradyne, Inc.—Transducer measures angular rotation (SP) .....Jan. 27 45
Union Carbide & Carbon Bakelite Co. Polyethylene: betteer and maybe cheaper (N) .....Apr. 21 17
Vinyl combination for jump seats (N) Jan. 27 17
Union Carbide & Carbon Electro Met Div.—Vanadium is easy to machine (D) .....Mar. 3 18
United Austrian Iron & Steel Co.—Universal radial drilling (N)....June 2 17
United-Carr Corp. Monadnock Mills Div.—Serrated polyethylene studs (SP) Jan. 13 40
U. S. Chemical Milling Corp.—Chemical milling. C. H. Lundquist .....Feb. 3 50
United States Gasket Co.—Plastic-metal bearing (SP) .....May 5 43
U. S. Rubber Co.—High-temperature aircraft tires (D) .....Apr. 7 5
U. S. Steel Corp.
Aluminum-coated steel wire (D) Feb. 17 18
Lighter-gage stainless sheet in larger widths (D) .....Jan. 13 5
Scale car for steel mill has hydraulic load cells (PD).....Mar. 31 110
Universal Winding Co.
Moos Div. developing fuel cells with an efficiency of 70 to 80% (D).Feb. 17 18
Nuclear batteries at 1/3 the cost (D) Feb. 10 7
University of California
How much fuel for a trip to the moon (N) .....Apr. 21 16
Isotope of nobelium confirmed (N) June 2 10
More about those ductile ceramics (N) Jan. 27 14
Planning for trips to the moon (N) Mar. 24 14
Power output could be doubled with nitro-paraffin fuel components (D) June 2 5
Satellites don't have to ride piggyback (D) .....Feb. 24 7
University of California, Radiation Laboratory — Thermonuclear machine — "mirror machine" (N) .....June 16 10
University of Illinois—Ceramic adhesives gain strength (N) .....Jan. 27 17
University of Manchester—Brushless, variable-speed induction motors (D) June 2 7
University of Sorbonne—Wins struggle with wine merchants of Paris (N) Feb. 24 23, Apr. 21 27
University of Southern California — Vivian, Robert E.—Point of View Feb. 10 40
Vacuum Research Co.—Linear is converted to rotary in cylinder (C) June 23 101
Valentine Sugars, Inc.—Plastics from sugar (D) .....Feb. 24 7
Valvo (Germany)—Valvo Ignitron (N) June 2 16
Van Doorne Automobielfabrik—Automotive air springs (PD) .....Apr. 28 86
Varimex (Poland)—Electrical soldering iron (N) .....June 2 17
Vertol Aircraft Corp.—Emergency gear floats Whirlybird (N) .....Mar. 17 22
Vickers Inc.—
Electro-hydraulic servo valve (SP) May 5 42
Starter for turbo-engines (PD).Feb. 3 66
Waldrich, H. A. GmbH.—Germans put TV in console (PD) .....Feb. 17 82
Walker, O. S. Co.—Linkage keeps table flat (PD) .....Feb. 3 64
Walworth Co.—Valves, welded instead of cast (D) .....Mar. 24 8
Waring Products Corp.—Drink mixer (T) Feb. 10 39
Waters Mfg.—Potentiometer with dial (SP) .....Mar. 10 49
Watertown Arsenal—Titanium can be remelted (D) .....Feb. 3 17
Wayne State University—Shock factors for impact loads. G. H. Howell (RS) Mar. 17 99
West Virginia Pulp & Paper Co., Inc.
Elastic paper (D) .....Jan. 6 34
Stretchable paper ready for jobs (N) Feb. 24 17
Western Gear Corp.—Titanium gears with surface durability (D).....May 12 20
Western Union Telegraph Co.
Do-it-yourself telegram (N)....Jan. 6 36
Pint-sized teleprinter gets tryout (N) Mar. 31 39
Westinghouse Electric Corp.
Adjustable speed drive (SP)...May 19 38
Case for process engineering. F. D. Seaman .....Mar. 31 118
Forum highlights static controls (N) May 12 25
Nicotung, new high temperature alloy (N) .....May 19 25
Porcelain-to-aluminum seal is simple but powerful (N).....June 30 18
Radio-controlled ranges in 1959 (D) Feb. 10 7
Seeks to restrain Le Tourneau (N) June 2 18
Taut band suspension (SP). June 30 27
Witting, Chris J.—Point of View June 2 31
Westinghouse Electric Corp. Air Arm Div.—New shock absorber. Sando & England .....May 12 86
Westinghouse Electric Corp., Bettis Atomic—Hermetic magnetic couplings. D. A. Guerdan.....Apr. 28 98
Westinghouse Electric Corp., Large Rotating Apparatus Dept.—Big motors—custom built from stock components (PD).....June 9 62
Westinghouse Electric Corp., Materials Engineering Dept.—Leaded steel. W. Simon.....Apr. 14 72
Weston Plastics—New types of closures (D) .....June 30 5
White Sewing Machine Corp., Apex Reinforced Plastics Div.—High-pressure storage bottles (SP) .....May 5 42
Wickes Corp. Machine Tool Div.—Redesign speeds automation (PD)..Mar. 3 63
Winslow Electro Fluid Co.—Electrically conductive fluids are opening (D) June 23 19
Worcester Pressed Steel Co.—Pressing can make complex shapes. C. C. Higgins .....Jan. 6 62
Wright Air Development Center
Foamed ceramics (D) .....Apr. 28 33
High temperature lubricant and hydraulic oils under test (D)....May 5 5
Plastic foam can make a poured package (N).....Mar. 24 16
Strong, dense cermets (N).....June 2 22
Wright Air Development Center, Light Metals Section—Pellet extrusions. H. A. Johnson.....May 12 80
Yardney Electric Corp.—300 watts of portable power with new ac battery (D) .....Feb. 17 18
Zenith Radio Corp.—Solar batteries power eyeglass hearing aids (D).....June 2 5

ARTHUR, Dogan H.—Point of View Mar. 24 35
BAGGS, A. R.—Point of View....June 2 30
BAUMANN, Fred—Automating a large, low-volume product.....June 23 88
BEIGER, Jack—Dynamic gear tester Jan. 20 69
BERKO, Lawrence—How to calculate stress in short cylindrical shells Feb. 3 81
BEVIS, Dr. Howard L.—Point of View June 30 25
BOCKHOFF, F. J. & D. L. Penney—Nylon-clad sleeve bearings.....Mar. 3 52
BOWMAN, A. P. & T. C. Mann—New dc motors.....Mar. 31 108
BOYCE, J. C.—Point of View....Jan. 13 33
BROTZEN, Dr. Franz R. & others—Gray iron castings.....Jan. 20 52
BUSH, Dr. Vannevar—On weather control .....Mar. 24 23
CAMERON, Russell J.—Pneumatics: valve with a memory handles logic circuits .....May 26 76
CHANDLER, E. Lawrence—Point of View .....Apr. 21 36
CHIRONIS, Nicholas—Coriolis acceleration—a force to be reckoned with May 26 72
CHORAFAS, Dimitris N.—Latin squares for fewer tests—same accuracy May 12 92
CLARY, Hugh L.—Point of View Mar. 24 34
COLEMAN, J. J.—Dry cells for quiet, dependable packaged power..Feb. 17 72
CONSTANCE, J. D.—Professional registration .....June 9 60
COUSINS, Norman—Point of View June 30 24
CRAWFORD, Clark—Point of View Mar. 24 34
DAHLE, Boyde & Clint Miller—Updating the K-factor formula for pressure drops in air valves.....Apr. 14 74
DALL, A. A.—Point of View.....Apr. 7 35
DICKE, Allen A.—Sandwich manifolding .....Feb. 17 88
DODGE, Louis—When pistons need brakes .....Feb. 3 56
DOWNES, Russell E.—Rubber cushions when bearings must be quiet.....Apr. 28 96
DUBRIDGE, Dr. L. A.—Point of View Jan. 13 33
DUNNING, Dr. John R.—Point of View June 30 25
EASTMAN, John R.—Controlled acceleration devices.....Mar. 3 75
EGGERS, Russ—Economics . . . and the engineer .....Mar. 31 100
EGGERT, Robert J.—Point of View June 2 31
ELLSWORTH, Harris—Point of View Feb. 10 40
ENGLAND, F. E. & R. M. Sando—New shock absorber.....May 12 86
EVANS, T. F.—Point of View....Jan. 13 32
FAMME, J. H.—One way to measure temperature of hydraulic lines Mar. 3 58
FLANDERS, Sen. Ralph E.—Point of View .....May 19 32
FLANNELLY, William G.—Chart eases moment-of-inertia calculations Feb. 17 95
FLESHER, K. A.—Multi-rate helical springs .....Jan. 20 76
FOERSTER, G. S. & H. A. Johnson—Pellet extrusions beef up magnesium structures .....May 12 80
FRENCH, Hector E.—Quick check for writing "instructions".....Mar. 3 85
FREUDENSTEIN, Ferdinand — Angular accuracy in precision gear trains June 9 70
FUSSELL, L. E. & H. P. Tripp—Porcelain coatings on steel.....Feb. 17 75
GARDNER, Annesta R.—Atomic energy: the facts.....Apr. 14 52
Exotic metals seek employment Mar. 17 66
Explosives become portable power power packs.....Jan. 6 56
Midget batteries—power paths to new design .....May 12 72
Motivation research: what's in it for you? .....Jan. 13 38
GINGER, Dr. Lyman V.—Point of View June 30 25
GIRARD, Dr. D. J.—Point of View Jan. 13 32
GOHEEN, Dr. Robert F.—Point of View June 30 24
GORDON, S. A.—How wrong can elastic constants be? .....Jan. 6 68
GORMLY, R. W. & R. W. James—Which adhesive for what.....Mar. 17 79
GREENWOOD, Douglas C. — Geneva wheel design.....May 26 83
The translating machine: an ABC for you .....Mar. 24 30
GROOT, R. W. & I. E. Roos—Small induction motors are going places Mar. 3 72
GROS, Eugene—Hydraulic extrusion Soviet style.....May 12 94
GUERDAN, D. A.—Hermetic magnetic couplings .....Apr. 28 98
HADLEY, George F.—Linear programming can be easy math.....Mar. 3 55
HALSTEAD, R. L.—High-speed molding process cuts cost of rubber parts June 23 68
HANKA, W.—Equations predict chance of misfit in assembly.....May 26 61
HARTMANN, Dr. Gregory K.—Point of View .....Feb. 24 39
HASTINGS, George S.—Should you use outside inventors?.....Jan. 13 29
HIGGINS, Carter C.—Pressing can make complex shapes.....Jan. 6 62
HOWELL, Glen H.—Shock factors for impact loads.....Mar. 17 99
HUMKE, R. K.—Sandwich panels
Core materials.....Jan. 20 70
Facing materials.....Apr. 28 80
Adhesives .....May 26 56
IRWIN, R. F.—How to lubricate instrument ball bearings.....June 9 66
ISBRANDT, Ralph H.—Point of View Apr. 7 35
JAMES, R. W. & R. W. Gormly—Which adhesive for what .....Mar. 17 79
JOHNSON, C. L.—Automatic manufacture for high production....June 23 82
JOHNSON, H. A. & G. S. Foerster—Pellet extrusions beef up magnesium structures .....May 12 80
JOHNSON, Howard R.—Invisible roadblocks to invention.....Feb. 10 34
JOHNSON, Sen. Lyndon B.—Point of View .....May 19 32
KAYE, S. Warren—Nomograph gives torque .....June 9 83
KEE, Herbert L.—Cast-in tubing May 12 76
KING, J. L. Jr. & W. E. Mulholland—Multi-function overrunning clutches Feb. 3 78
KNOWLAND, Sen. William F.—Point of View .....May 19 32
KOFF, Richard M.—The engineer vs security .....Mar. 31 102
KOFF, Richard M. & John Pippenger—Maintenance advice for fluid circuits Mar. 17 71
KRIVETSKY, Alexander—How to plot and read a carpet curve.....Mar. 31 127
KROLL, Dr. William J.—Individual invention—a lost art?.....Feb. 24 32
LANCOR, J. H.—Point of View..Apr. 7 34
LEAMER, F. D.—Point of View..Feb. 24 39
LEIBING, C.—Fuses do this....Jan. 6 64
